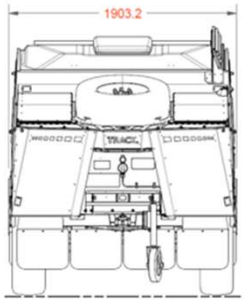
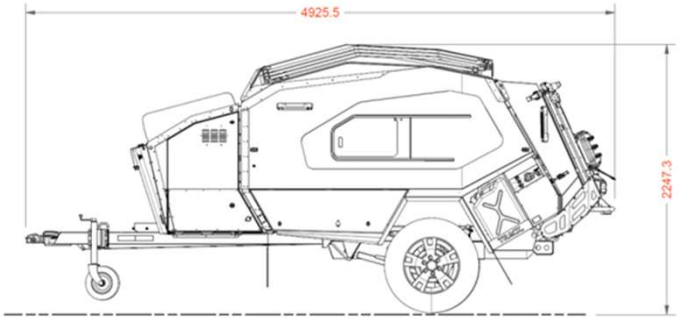
TVAN MK6





The **MK6 generation** builds on the rock-solid reputation award winning Tvans have established over more than 26 years. They are renowned for their bulletproof build and go-anywhere off-roadability since they first arrived on the Australian market.

The Tvan® MK6 shares the same off-road 'DNA' as previous Tvan® models. The MK6 boasts several huge improvements including vastly greater headroom that provides a more spacious feel, noticeably larger windows, improved interior lighting with a brighter more modern feel. The new front boot also receives a substantial refresh with a 40% larger fridge compartment that can accommodate a 95litre dual-zone fridge / freezer together with a 20% larger pantry.

The principal features of the Tvan® such as the quick erect tent, stored in its own compartment (not on the bed), MC2 Suspension®, hot dipped galvanised chassis, durable riveted steel and aluminium construction of the cabin and lower body lockers, aluminium rear folder platform (deck), off-road electric brakes and fully articulated off-road coupling are shared across all MK6 models.
