Risk Disclaimer

Effective Date: January 1, 2026

Please read this Risk Disclaimer carefully before using The Trader's Crib website, purchasing our products, or engaging with our content.

Trading Involves Risk

Trading and investing in financial markets carries a high level of risk and may not be suitable for everyone. You could lose some or all of your invested capital. Only trade with money you can afford to lose.

Educational Purposes Only

All content provided by The Trader's Crib — including courses, articles, videos, and community discussions — is for educational and informational purposes only. Nothing on this site is intended as, and should not be interpreted as, personalized investment advice or a recommendation to buy, sell, or hold any financial instrument.

We Are Not Financial Advisors

The Trader's Crib and its team are not licensed financial advisors, brokers, or registered investment advisors. We do not provide individualized investment recommendations. Always do your own research and consult a licensed financial professional before making trading or investment decisions.

No Guarantee of Results

Past performance is not indicative of future results. Any results, examples, or testimonials shared on this site — including from our team or community members — are not typical and should not be relied upon as an indication of future performance or profitability. Trading outcomes vary significantly based on individual experience, discipline, risk tolerance, and market conditions.

Emotional & Healing Content

Because our community centers healing alongside trading, we want to be direct: content related to emotional wellbeing, mindset, or personal growth is offered for informational and peer-support purposes only. It is not a substitute for professional mental health treatment. If you're struggling emotionally, please reach out to a licensed therapist or counselor, or a crisis line if you need immediate support.

Your Responsibility

By using this site or purchasing our products, you acknowledge that you are solely responsible for your own trading and financial decisions, and you assume full responsibility for any outcomes, gains, or losses that result.
