

A Keyword should “live in time”, meaning it has to have relevance through the years
The ones with the slash are examples, clients usually land on one or two, depending on their needs. I do Keyword people as well as use facial recognition. It is the combination of keywords that is powerful.

Key Word List:

- Art/Paper/Documents
- Birthday
- Individuals in the family should have their name as a key word
- Favorite places like vacation homes should have their own key word
- Pets
- Extracurricular
- Family (blood relatives and by marriage)
- Favorite photos in your library, not jus the ones in your Favourites on your phone
- Friends
- Food
- Gatherings/Parties? Luncheons etc
- Holiday
- Home- home repairs, before and after, decorations etc
- Landscape/Scenery/Other- pictures with no specific people in them, including parades, buildings, sports games etc
- NeedDate- scanned or social media pictures with dates that need to be fixed
- Old Photos
- School
- Sports
- Social Media
- Special Occasion- events that only happen once
- Sports
- To Delete
- Vacation
- Work
