Nott just any other city..!!!

NOTTINGHAM has long been a powerhouse of enterprise, blending rich history with modern economics. In the Industrial Revolution, it became world-famous for its lace-making industry, exporting fine textiles across Europe and beyond. This spirit of innovation extended into bicycle manufacturing, pharmaceuticals, and tobacco, with major firms establishing roots that shaped the city's commercial identity. Today, Nottingham thrives as a diverse economic hub, driven by sectors like life sciences, digital technology, and finance. Home to cutting-edge research institutions and a skilled workforce, it attracts both startups and global companies. Its central location and strong transport links enhance its appeal for business investment. Nottingham's ability to evolve while honoring its industrious past makes it a key contributor to the UK economy, offering opportunity, creativity, and resilience.

This Expo guide and exhibitor listing was designed by Smooth Designs. Come and visit Jonathan at Stand 02 to see how he can help you with all your design, advertising, marketing, expo and printing needs.

WELCOME TO BNX NOTTINGHAM.
We are thrilled you are here. Whether you are exhibiting, attending or simply coming to see what it is all about, you have made a powerful decision to connect. We understand how much time and effort that takes.

BNX was created because we believed something was missing. Too many expos deliver a good day, but very little afterwards. Conversations happen, connections are made and then momentum fades. Opportunities are lost.

We set out to change that. Today is about starting conversations. It is about building relationships and increasing visibility. But just as importantly, it is about what happens next. The follow-up, the support, the accountability. That is where real growth happens and that is what **BNX** is built around.

Take your time today. Be curious. Speak to people you would not usually approach. Ask questions. Share what you do. One conversation can change everything. Just one...

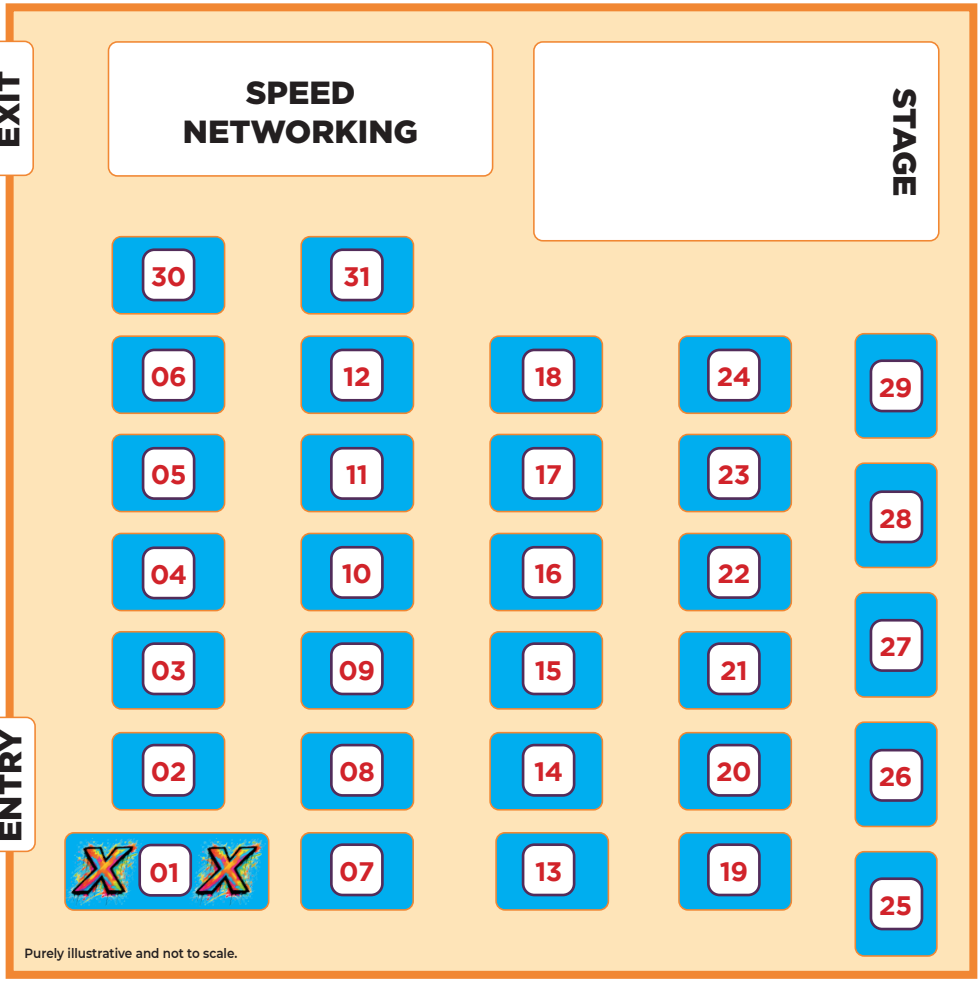

Get involved in the **BNX Business Quest** - designed to help you get more from value from your day. Then sign up for the two post expo workshops to really help you follow up.

We are incredibly proud to bring **BNX** to Nottingham and to be building a community of businesses that genuinely want to grow and support each other.

This is not just an expo. It is the start of something special.

Let us see where it takes you.
Caroline and Sara

10:30 EXPO opens **We are honoured to welcome the Mayor of Gedling, Kyle Robinson-Payne, to officially open the Expo**

Today's Keynote Speakers

Geoff Smith; CEO of Flawless Debt Management Ltd

How to keep your boat afloat

From London's back alleys to Hong Kong's boardrooms, I've lived more business adventures than most people see in several lifetimes. Now I channel that hard-earned experience into one laser-focused mission: Getting businesses paid.

Whatever "impossible" collection case is keeping you awake at night, we've likely cracked a dozen just like it. Been there, solved it, got the t-shirt – and the money back for our clients.

Geoff will share ten tips on how to avoid your business sinking, including outstanding debt tricks on keeping yourself afloat

See Geoff speak at 11.00am

Vanessa Mary

The alignment advantage

Vanessa-Mary is a holistic well-being healer and keynote speaker known for her powerful, alignment-driven approach to leadership.

Vanessa-Mary introduces The Alignment Advantage, the shift that occurs when leaders take responsibility for the emotional and spiritual energy driving their business.

Based on her personal experience she shares how emotions when consciously recalibrated, become a source of clarity, influence and magnetic presence. This inspirational talk will show you why alignment is not a mindset trend. You will discover why disciplined inner leadership changes everything.

See Vanessa speak at 1.20pm

TODAY'S ITINERARY

15:00	Expo Closes

Today's Workshops

Rohan Williams - Why Your Business Needs CRM

Rohan looks at what a CRM really is and why it matters for small businesses and not just bigger firms with large teams. We'll explore how a CRM helps you stay organised, follow up consistently, project customer relationships and stop valuable leads slipping through the cracks. If you think you "don't have enough clients yet" to need a CRM, this meeting will show exactly why that's exactly the point to start.

Learn what you NEED TO KNOW in just 30 minutes

Join Rohan at 11.30pm

Steve Bennett - Rebuild the Leader Within

Leaders don't struggle because they lack intelligence or ambition - but because they lack alignment. This workshop introduces The 4 S's Framework - Straight Talk. Strategy. Standards. Structure.Designed for entrepreneurs, executives and business owners who feel successful on the outside but unsettled on the inside, this session gets to the core of what drives clarity, confidence, and consistent results.

This is not theory. It is practical leadership recalibration.

Join Steve at 12.45pm
