Reaching Europe Ministries- North Macedonia

## Multiplied- New Book Released! Free!

What began as a simple desire to give more to missions sparked a movement that transformed a church and touched the world. Multiplied tells the story of ordinary people—young and old, skilled and unsure—who learned that when they surrender what they have, God multiplies it for eternal impact. Available on Amazon or free on [reachingeurope.org/books](http://reachingeurope.org/books)

## Sowing the Seed-2025

From May 26th to June 6th, Senja and I are excited to lead a 16-person missions trip to Macedonia. People from across the United States will join us with the goal of meeting locals, building relationships, and sharing the gospel through tracts, Gospel booklets, and coloring books for children. Please pray for every detail to be guided by the Lord, that He may receive all the glory and praise!

## WWE-Missions Weekend

I am privileged to have had the opportunity to work alongside my pastor in organizing and leading my home church's first-ever Missions Conference. It was a weekend filled with fellowship and preaching focused on missions. You can watch these services on the Grace Baptist Decatur YouTube channel, and I highly recommend them!

## Paperwork and Government

This May, upon arriving in Macedonia, we will begin the lengthy paperwork process to live there full-time. This process takes about six months. Due to government regulations, we must leave the country before the paperwork is finalized. During this time, we will submit the necessary paperwork and continue raising support. We plan to have everything in order by October and hope to move full-time at that point. Lord willing, we aim to begin holding services in the early winter of 2025. Please pray with us toward this goal.
