The Glass Skin Collection

Corrective care. Restorative ritual. Skin that feels as
healthy as it looks.

01 THE PHILOSOPHY

WELCOME TO EVER ENCHANTED

Healthy skin is the foundation of beautiful skin.

Every ritual begins with the condition of your skin—not a trend, a template, or a one-size-fits-all protocol.

Ever Enchanted blends corrective skincare with barrier-first care, Korean skincare techniques, and an experience designed to help you understand your skin. Your esthetician evaluates hydration, sensitivity, congestion, tone, texture, lifestyle, and current homecare before shaping the ritual. That is why two guests booking the same facial may experience thoughtful

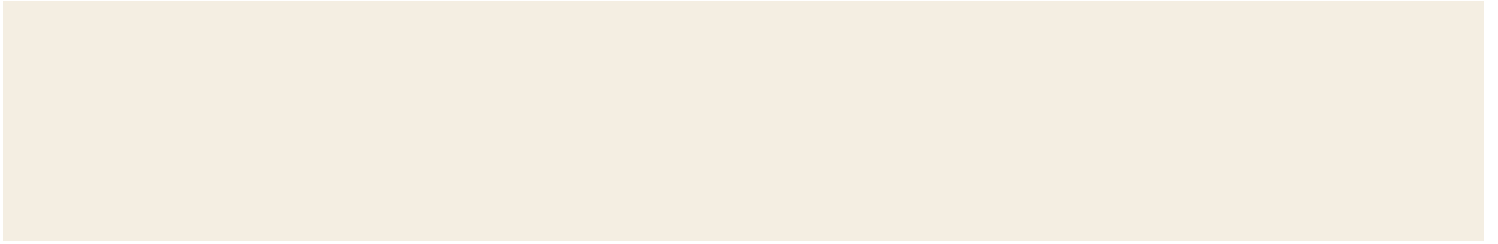

differences. Customization protects the skin from unnecessary steps and focuses the treatment on what will create the most meaningful support that day. Every facial closes with the signature Glass Skin Finish™—layers of hydration and finishing care selected for luminous, comfortable skin.

WHY KOREAN SKINCARE?

Healthier skin, built layer by layer.

Korean skincare is less concerned with disguising a concern and more focused on creating the conditions in which skin can function and look its best. The approach values consistency, prevention, hydration, barrier health, and carefully layered formulas.

01	Double Cleansing	Removes makeup, sunscreen, oil, and daily buildup without relying on one overly aggressive cleanse.
02	Hydration	Uses multiple lightweight layers to restore water, comfort, and visible bounce.
03	Barrier Health	Protects the skin's natural defense system so corrective work can be better tolerated.
04	Ingredient Layering	Pairs compatible products in a deliberate order to support absorption and balance.
05	Prevention + Correction	Improves the present condition while supporting long-term resilience and consistency.

02 THE COLLECTION

Professional technique is only one part of an excellent wax. Ever Enchanted considers barrier condition, sensitivity, ingrown-hair history, timing, and aftercare so the skin—not simply the hair—is cared for throughout the experience.

Expect clear preparation guidance, thoughtful product selection, professional technique, and personalized recommendations to support comfort and help reduce preventable irritation and ingrown hairs.

THE ENCHANTED SOUND LOUNGE

Let your whole system exhale.

Vibroacoustic therapy pairs low-frequency sound with gentle physical vibration through a specialized lounge. Rather than listening only through the ears, you experience the rhythm through the body in a quiet, supported setting.

The experience can complement skincare by helping you settle before or after a treatment. Guests who feel overstimulated, stressed, mentally busy, or simply in need of

intentional stillness may especially appreciate the Sound Lounge.
You remain fully clothed, recline comfortably, and allow curated sound and vibration to
create a deeply immersive rest experience.
