Long-Term Benefits

In this 6-month study, participants replaced two meals a day with Shaklee Life Shake and followed a 40-minute, twice-weekly exercise program.

The purpose of the study was to examine the effects of exercise alone and exercise combined with specific nutrition programs on body composition. The findings indicate that a higher protein and lower calorie nutrition plan may enhance the effects of exercise for decreasing subject body weight, BMI, percent fat, and fat weight, while attaining similar gains in lean body mass.

Clinically proven to help build and retain lean muscle, lose weight, and keep it off.*^{1,2}

+ 3.7 lbs. of lean muscle

VIVIX® Powerful Protection for Your Cells

Vivix is formulated to help protect against oxidative cell damage and help with energy metabolism. Derived from a unique blend of polyphenols, the key ingredients in Vivix are scientifically proven to help protect your cells so you can live well longer.

Vivix Protects Your Cells

It's staggering, but true: your cells are attacked over 500 trillion times every minute, not only by a modern diet and environmental toxins, but also by the unavoidable cellular wear and tear of simply being alive. The accumulated damage from these attacks causes cellular damage, and as your cells age, so do you.

Key ingredients in Vivix are shown to:

Protect DNA from damage

Neutralize free radicals

Protect against oxidative stress

Help in energy metabolism

Vita-D₃ ★ Promotes healthy bones and teeth

Vitamin D, which is made by the body through the skin’s exposure to ultraviolet rays from the sun, plays a major role in protecting your health and is vital for overall well-being. It helps in the development and maintenance of bones and teeth and aids in the absorption and use of calcium and phosphorus. It may reduce the risk of developing osteoporosis when combined with calcium intake, a healthy diet, and regular exercise. It also helps maintain immune function.

Yet, recent studies have shown that many Canadians – starved of adequate sunlight during the fall and winter months – are deficient in the so-called sunshine vitamin. Boost your vitamin D level with Shaklee Vita-D₃. Each tablet contains 2000 IU of vitamin D₃, which is the most potent form of vitamin D.

Conceal: Powder To Cream (V)
A Powder that Transforms to Cream with the Touch of a Finger

It's not what you're imagining. It's not a "creamy powder". It's a powder that transforms to cream with the touch of a finger. Like magic, these microscopic beads of concealer are encapsulated into tiny powder-like spheres that burst only when you decide. This keeps the product dry, which aids in a lowered risk for bacteria growth and ensures that your face is only getting clean, fresh product when it is applied.
