

# She Reached the Top of the World. *Twice. Then She Left It All Behind.*

At 21, Bonnie was a high school dropout with one book and a dream she couldn't explain. She spent nearly a decade becoming the person that dream required. Then she entered business and sat at the bottom for three years until something clicked. She became truly coachable and rose to **top 10 producer in the world**. When that company went bankrupt, she launched again and became the **first single female out of 16 million** to reach the highest position in her field. Top 10. Again. She had every title and a quiet knowing that none of it was the dream she declared at 21. So she walked away to co-found **Creating Champions For Life**, a methodology that has transformed 3,000+ children across North America.

#### SIGNATURE TALKS

##### 01 How Champions Are Built, Not Bought

*Business builders, leaders & high achievers*

A leadership masterclass from rising to top 10 producer in two global companies twice. The mindset shift that separates those who plateau from those who keep climbing no matter how many times they start over.

##### 02 They Called Him Broken. He Changed the World.

*Parenting, ADHD & behavioral summits, women's events*

Einstein. Edison. Jobs. Branson. Every one would carry a diagnosis today. Bonnie makes the case that the most difficult child is often carrying the most extraordinary potential and only one person stands between a diagnosis and a destiny.

##### 03 Yes, You Are Allowed to Dream

*Women's conferences & faith-based events*

From high school dropout to the first single female of 16 million at the top twice. Permission for every woman to stop shrinking and step fully into the calling she has been quietly talking herself out of.

#### WHAT THEY SAY

*"People love hearing from you and being in your energy. I would be honored if you would consider returning as a featured speaker."*
