Quartz Surfaces

NEXT GENERATION SURFACES

THE ARCHITECTURAL PORTFOLIO

PREMIUM, UPPER & STANDARD SERIES

Trendstonenz.com

CRAFTED FOR EVERY VISION

Engineered Stone. Perfected for Every Space.

Unrivalled Natural Stone Realism

From the timeless elegance of our Standard series to the pixel-precision of our Premium Nano-Ink printing, experience marble-like veining, granite depth, and subtle mineral textures across our entire portfolio.

Coordinated Surface and Edge Finish

Our advanced manufacturing assists to create the look of continuous veining and harmonious colour from surface to edge. The colour-coordinated base helps to maintain a consistent appearance in cut sections and corner profiles, ensuring your design remains refined from every angle.

Engineered Performance. Elevated Design

Built on a highly durable matrix, our slabs resist scratches, stains, and heat, with no sealing needed. Cleaning requires only mild soap and water, making them perfect for everyday living. Furthermore, our commitment to health means providing Low Silica options across targeted collections.

Built for High-Traffic Spaces

Whether it's residential kitchens and bath countertops, or commercial foyers and feature walls, our engineered surfaces mean no moisture absorption and no bacteria build-up.

AUTUMN GOLD

3200 x 1600MM | 20MM | SILK | [PREMIUM]
