

THE HOPSCOTCH TOURNAMENT

Four competitions, one champion

Every Recess Olympics builds to the signature Hopscotch Tournament. The grid has 10 numbered boxes (18 in. each), laid out 1 · 2 · 3|4 · 5 · 6|7 · 8 · 9|10, then Home.

1. Speed

Individual, timed. Hop to Home and back twice (two laps). Two tries; the best time counts. No skipping boxes, and each step outside the grid adds 2 seconds.

2. Endurance

Individual, timed. The same as Speed, but six laps. Two tries; the best time counts.

3. Challenge

Head-to-head, single-elimination bracket. Players toss bean bags onto each other's grids and must hop over every box with a bag. Each stage adds a bag. Clear a stage your opponent misses and you advance.

4. EXTREME Hopscotch

Teams of 3 to 5 race an obstacle relay over five grids, with moves like hopping backward, one-leg hops and spins. Every team includes a wheelchair sprint leg, so anyone can join any team.

Overall Hopscotch Champion: best Speed time + best Endurance time, minus the Challenge finish bonus (up to 7 seconds for first place). Lowest total wins.

You can walk, you can run, you can bike, but can you hop?
