MANUFACTURED FOR THE JOB.

FALCON OILFIELD SUPPLY

SHAKER SCREENS

OUR CORE FOCUS

MANUFACTURING

We manufacture high-performance shaker screens for demanding drilling environments. Using quality materials, precision-tensioned mesh and proven production processes, our screens are built for consistent separation, reliable flow and extended service life.

Manufactured in compliance with API RP 13C and ISO 13501, Falcon screens are engineered to provide dependable performance and direct interchangeability with major OEM shaker systems.

- API RP 13C & ISO 13501 compliant
- Precision tensioning and exact tolerances
- High-strength frame construction
- Consistent separation and flow capacity

SCREEN RANGE

Our screen range covers a wide variety of shaker types, frame designs and mesh configurations to suit different drilling applications and operating conditions. From coarse scalping to fine separation, Falcon provides screens engineered for efficient solids conveyance, reliable separation and long service life.

- Composite frame screens
- Steel frame screens
- Balanced and high-flow designs
- Multiple mesh sizes and configurations
- Replacement screens for major OEM shaker systems

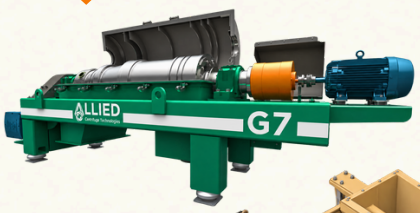

Available for SWACO, Brandt, Derrick, FSI, NOV, Scomi and other major shaker systems.

FALCON OILFIELD SUPPLY

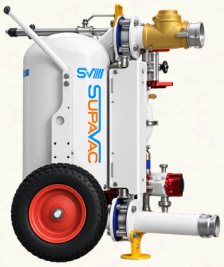

BEYOND THE SCREEN

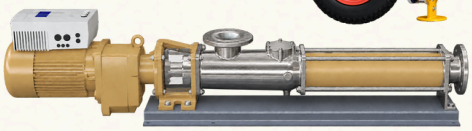

EQUIPMENT & SPARES

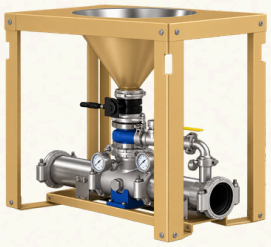

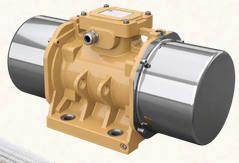

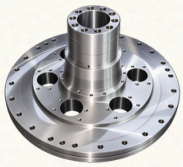

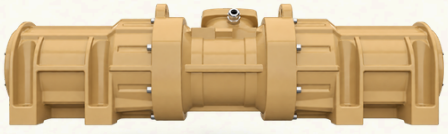

SOLIDS CONTROL

Falcon Oilfield offers a full range of reliable, field-proven solids control equipment sourced from trusted partners and manufacturers to keep your operations running efficiently.

- Centrifuges
- Shale Shakers
- Desanders / Desilters
- Agitators

PUMP SOLUTIONS

Our pumping solutions deliver reliable performance for demanding oilfield applications. Designed for efficient fluid and solids transfer, they help reduce downtime, improve productivity, and maximize operational efficiency.

- Centrifugal Pumps
- Centrifugal Pumps Packages
- Vacuum Pumps
- Solids Pumps
- Positive Displacement Pumps

MIXING & BLENDING

Backed by decades of expertise, our mixing and blending solutions deliver reliable performance to help reduce additive waste and increase productivity.

- Mixing Shearing Hoppers
- Mud Guns
- Mixing Eductors
- Big Bag Mixing systems

SPARES & CONSUMABLES

Falcon Oilfield supplies a comprehensive range of spare parts and consumables for solids control equipment. We provide reliable components for routine maintenance, equipment servicing, and ongoing operations, helping you minimize downtime and keep your equipment performing efficiently.

- Shaker Screens
- Filter Cartridges
- Shaker Parts
- Centrifuge Wear Components
- Centrifugal Pump Parts
- SupaVac Spare Parts

RIG LIGHTING

Falcon Oilfield supplies HALO crown-mounted lighting systems for rig operations, combining powerful LED illumination, quick installation, and automated controls.
