

FALCON SCREENS

A CUT ABOVE THE REST

COMPOSITE SHAKER SCREENS

Falcon composite shaker screens combine heavy-duty frames with advanced mesh technology to support efficient solids separation and maintain optimum drilling-fluid properties. Engineered for compatibility with major shale shaker brands, they offer durable construction, precise OEM-interchangeable fit and cost-effective performance.

Manufactured in accordance with API RP 13C and ISO 13501 specifications.

KEY FEATURES

- API RP 13C compliant
- Quality construction
- Exact tolerances
- High-strength grid design
- Precise tensioning
- Less weight than metal panels
- Better solids conveyance

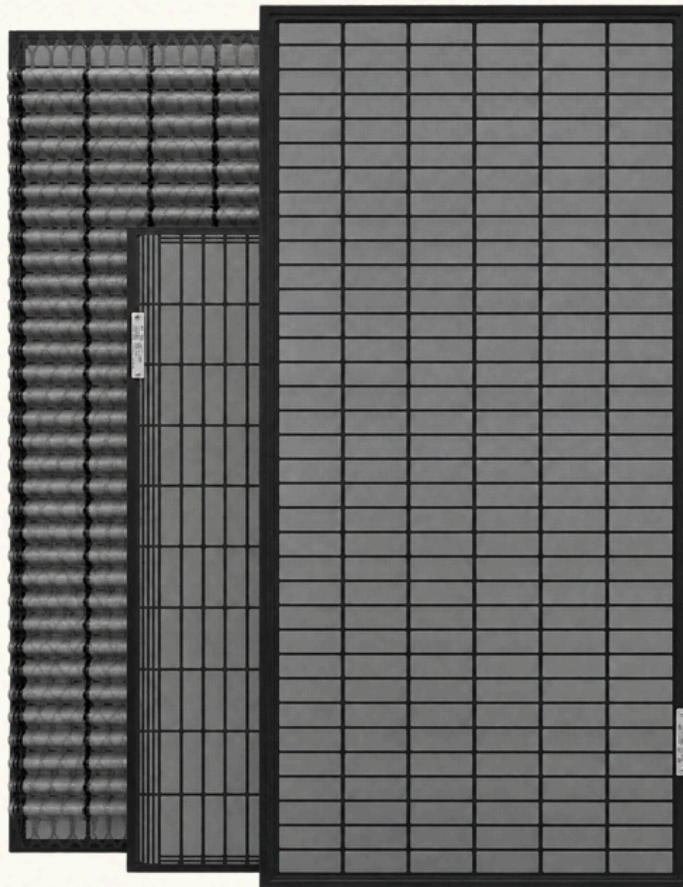

EXTENDED SERVICE LIFE

Polyurethane plug technology enables efficient on-site repairs, helping extend screen life and reduce operating costs without compromising separation efficiency or structural integrity.

SCREEN COMPATIBILITY

Equivalent composite screens

- Swaco Mongoose / Meerkat
- Swaco MD2 / MD3
- Brandt King Cobra / Venom
- Brandt VSM300
- FSI 5111

Flat & corrugated screen options

Other replacement screens

- Derrick FLC-500 series, 600 series
- NOV Multi-Sizer
- Scomi PrimaG
