E KOMO MAI WELCOME

E Komo Mai! Welcome to Hale Malie

On behalf of Kauai Luxury Vacation Villas we would like to extend a warm welcome to Hale Malie. We hope your stay with us is enjoyable. For your convenience we have outlined some key informational details to utilize the home's amenities. Kindly reach out to us at (808) 742-3022 if you need any additional assistance.

To help preserve Kauai's natural beauty and protect local wildlife, we kindly ask that all exterior lights be turned off between 10:00 PM and 7:00 AM. This helps minimize light pollution and supports the island's delicate ecosystem. Mahalo for your cooperation!

How to Open Sliding Glass Doors?

All doors must be closed for AC to work. All doors have turn locks on them. Ensure they are unlocked before sliding.

Air Conditioning & Home Controls

AC controls are on the touch screens in each room. All doors must be closed for AC to function. If a sliding door is open in the house, you will be alerted by a pine tree icon in the upper left hand corner of the touch screens. The wall-mounted touch screens can also control lighting, music, and more. In the center bottom of the screen is a "rooms" button where you can select the room you wish to modify. Choose from different media player apps like Spotify, SiriusXM, and more. For lighting, it can be convenient at night to hit the "all off" option. For additional guidance with the controls feel free to call us at (808) 742-3022 or text us at (808) 500-5767.

Living Room TV

To turn the system on, push the "cable" or "Apple TV" button across the top of the remote. The TV will then turn on but you will have to press the round button in the middle of the remote to activate other programs. Wait 15 seconds. The circular touch pad around the central round button will control Apple TV. For cable, the "Guide" and arrow buttons will access the channels you desire. The red button on the remote will turn everything off.

Primary Bedroom TV

The TV up and down buttons raise and lower the TV. Once raised, select the Apple TV button. If you wish to watch cable in the bedroom, there is an AppleTV app that you will see on the main page. The "Power" button will turn everything off.

Primary Bedroom Mattress Controls

You can control the firmness and temperature controls for each side of the Sleep Number bed through the various bedside remotes. Also, if looking for bedside outlets, there are numerous sockets; you may just have to look beyond the bedside tables.

Pool & Hot Tub Temperatures

There is a touch screen remote control that can adjust the pool and hot tub temperatures. Along the left hand side of the remote you can toggle between pool and spa. Push the heat/cool buttons to adjust the temperatures.

Kitchen Refrigerator Ice Maker

On the main refrigerator screen there are three ice settings: off, normal, and high. The normal setting should suffice. Try high if you want to make plenty of ice quickly.

Trash Pick-Up

Trash can be picked up daily by texting the Front Office at (808) 742-3022 and letting us know you would like a pickup.

PRESS READER:
