of how this works – step by step.

No hype. No pressure. Just clarity.

Let's Talk About **Income**

You don't need hundreds of people to make this work.

Most partners start by helping just a few people each month.

Because the platform handles the medical side, prescriptions, and fulfillment... you simply focus on connecting and supporting.

No inventory.

No customer service headaches.

No complicated systems.

This is built for real life – not burnout.

What This Can Look Like

Most people start small – and build over time.

Here's a simple example of how this can grow.

5 customers

→ extra monthly income

10-15 customers

→ consistent side income

20+ customers

→ strong monthly income

This isn't about going viral or chasing people.

It's about helping the right people consistently.

Income varies based on effort, consistency, and engagement.
