Level 1 – Nail expert.

Basic Course – Builder Gel/BiaB with Gelpolish course

During the 2-day course, you will learn to work with different gels.

This course is designed for both beginners and advanced students looking to improve their techniques. During this course, you'll learn to work with Building Base and Rubber Base and discover the differences between all the gels in a bottle. You'll be prepared not only to apply a flawless builder in a bottle but also a gelpolish colour

The most common treatment in salons is nail polish. During the course, you'll also receive comprehensive training in:

1. Taking off old products.
2. Fixing cracks or fractures.
3. Restoring nail shapes for a perfect finish.

This course consists of both theory and practice. Here's an overview of what you'll learn:

1. Different gels.
2. Natural nails
3. Hygiene
4. Russian manicure
5. Strengthening the nails with gel
6. Filing and shaping gel nails
7. Applying a gelpolish colour perfectly, close to the cuticle
8. The technique of filing for a smooth and tight result.
9. Removing gel polish without damaging the natural nail.
