WHY THIS MATTERS FOR YOUR BUSINESS

When someone searches online for a service like yours, they rarely scroll very far. If your website doesn't contain useful, relevant content, Google and AI tools like ChatGPT have very little reason to recommend you.

Regular blog articles help search engines understand what you do, where you work, and why people should choose you. Answer Engine optimised articles are the answer.

We create two professionally structured articles every month that help your website become easier to find, easier to trust, and easier to recommend.

WHAT YOU GET

2 articles each month with around 2,000 words each

Share your ideas and we turn them into articles

Written for Google search (SEO)

Published directly to your website

Written for AI search tools

You can approve everything before it goes live

Topics that people are actually searching for

No more blog section that is never updated

YOUR QUESTIONS ANSWERED

Do I have to write anything?

Not a word. We research the topics, write the articles, and publish them for you. You are welcome to give us a story if you have one on a topic.

How long until I see results?

SEO builds over time. Most businesses begin to see real movement within about three months of consistent publishing.

Can I ask for a specific topic?

Absolutely. You can suggest topics, send us ideas, or even share your thoughts in a quick message or voice note. We'll turn them into a polished article.

What if I want to write my own blog posts?

That's great. You're welcome to publish your own posts alongside ours anytime. Our articles are designed specifically for search visibility, while your own stories and insights add personality and expertise.

Do I need a website for this?

Yes. The articles need somewhere to live. Bundle this with our website product and we can manage everything for you. Or we post to WordPress, Square Space, Shopify, etc...

WHY WE ARE DIFFERENT

Articles written so that kiwis get them, conversational and friendly. You will be surprised at the quality and the price.

Plain english. Simple solutions. Real support.
