WHY THIS MATTERS FOR YOUR BUSINESS

When someone searches for a builder, electrician, café, or local service, the first thing they do is look online.

If they can't quickly see **who you are, what you do, and how to contact you**, they often move on to the next business.

A clear, professional website acts like your **digital front door**. It shows people you are real, trustworthy, and ready for work.

For \$100 a month with no upfront cost, we help shape how your business appears online we are investing in small business helping with logos, colours, layouts and getting the wording just right. Then we build the website, host it, and keep everything running smoothly.

You focus on running your business. We take care of the website.

YOUR QUESTIONS ANSWERED

Do I own my website?

Yes. It is yours. If you ever leave us, we send you the files. No funny business.

What do I need to give you?

A few details about your business, any photos you have, and your logo if you already have one. If you don't have a logo or brand yet, we can help you sort that out.

What if I need more than 1 hour of changes?

Extra work is billed at \$150 + GST per hour. We always quote before starting.

Is there a contract?

We ask for a 6-month commitment to get you properly set up and seeing results. After that, it's month-to-month. You can cancel anytime with 30 days' notice.

I already have a website. Can you take it over?

Often yes. Flick us a message and we will take a look at no charge.

WHY WE ARE DIFFERENT

We are a 100% Kiwi owned business that wants to help NZ businesses get seen so they can grow and succeed.
