TIMELESS

WINDOW & DOOR COLLECTION

The newly unveiled Timeless flush sash window is reminiscent of early 19th century timber windows and is ideal for heritage homes, particularly in conservation areas where authentic looks are all-important.

WELCOME

Timeless is the most authentic, high-performing and stylish timber-alternative window and door range currently available in the UK. Designed in Britain, with an understanding of the importance of the heritage requirements of traditional British homes, without compromising on modern security and thermal efficiency standards.

As the name suggests, the Timeless Range will enhance any property, from the oldest character cottage to an architectural new build design. Part of the appeal is the choice of styles, allowing you to select classic looks or contemporary styling to enhance the appearance of a country cottage, traditional townhouse, or provide an upmarket finish to a modern extension or new build property.

Innovative technology gives the Timeless Range the edge over most other uPVC windows. The traditional flush sash styling, combined with an authentic timber effect finish and a stunning range of colours culminate in a range of windows fit to compliment any British home. With thermal performance far exceeding that of timber windows, you will enjoy the look and feel of a classic traditional product whilst enjoying the benefits of modern insulating, structural, and security technology.

We hope this brochure gives you plenty of inspiration for your next home improvement project and if you would like any more information please don't hesitate to give your registered Timeless Installer a call.
