MESSAGE FROM THE PREMIER OF ALBERTA

On behalf of the Government of Alberta, it is my pleasure to send greetings to KAG Canada and Innovative Fuel Systems (IFS) on the successful addition of hydrogen-natural gas multi-fuel trucks into commercial operation.

Alberta has always been a province of innovators. IFS' technology harnesses the potential of cleaner-burning fuels to reduce emissions while delivering performance in the trucking industry. Transportation is one of the key markets for the growth of clean hydrogen in our province as part of a lower-emission future. It is exciting to see this advance in North America's largest tank truck transporter.

Congratulations on this milestone, and please accept my very best wishes for continued success.

Honourable Danielle Smith, Premier of Alberta
