

OSMOSISCON

Dear

OSMOSISCON, the official conference of **OSMOSIS – An Association for OSINT Professionals** will take place in Bonita Springs, FL and virtually via OSMOSISCon's official online conferencing platform from May 31 - June 2, 2026. I believe my participation would bring new ideas and approaches to our organization and significantly advance my professional development, and I would like to request approval to register. The in-person and virtual interactive program offers:

- + Education sessions addressing the threats and opportunities in social media and open source intelligence
- + Access to the online conference, featuring the newest products and services from on-point solution providers
- + Opportunities to network with 500+ peers from both public and private sectors in-person, and year-end access to the virtual conferencing platform for networking with the best of the OSINT community
- + 15+ continuing education credit hours

I intend to use the knowledge I gain to cost-effectively improve our research and security practices, and to share this information with our department. I will also make the conference materials available. Additionally, if you deem it valuable, I will create a brief presentation or report on the following topics:

- + The OSMOSIS Association's education partners
- + Key highlights and synopses of the most notable speaker sessions
- + A comparative analysis of the vendor products and services that we should consider for our needs
- + The connections I've made with new experts, peers, and colleagues from the conference

Investment

Registration: \$

Travel & Lodging: \$

Meals & Incidentals: \$

Total Estimated Cost: \$

Ultimately, I think this opportunity will yield rich dividends in the most efficient, practical, and effective way for my professional development, as well as for our organization. Thank you again for your consideration.

Sincerely,
