

GoBoostify - Launch Your Website Guideline

Launching your own website can feel overwhelming, but don't worry! Think of it as your digital home, your spot on the internet where customers, friends, or fans can easily find you. With our simple tools and ready-to-go templates, you're just moments away from having a professional-looking website.

Launching a Website on Your Domain

Ready to get started? Great!

1. **Navigate to Sites > Websites:** First, let's head to the Websites section to kick things off.
2. **Select From Templates and Click Create:** Review our templates. Once you've found your match, click "preview" to see it live, then hit **Continue**.

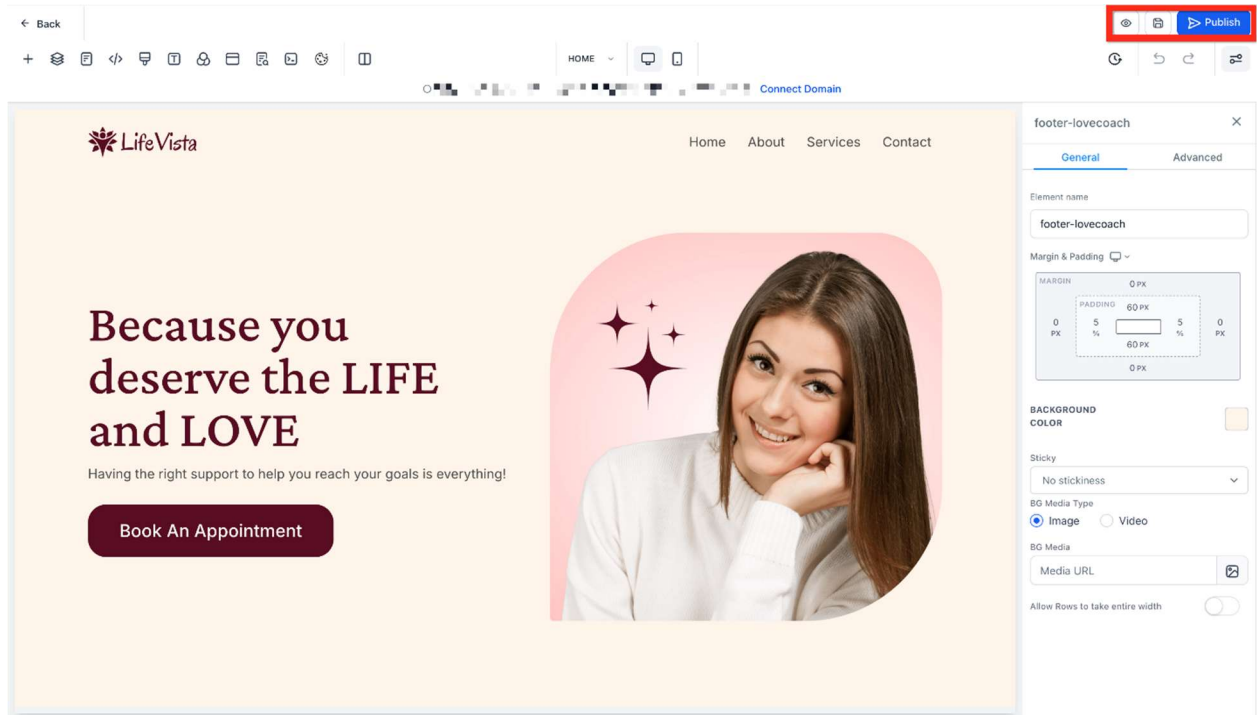

Next, you'll customize your site:

3. **In Website Editor, Configure Website:** Play around, tweak colors, add images, and really make it yours.

4. **Click Save:** Don't forget to save your masterpiece!
5. **Click Publish:** Make it live for the whole world.
6. **Click Back (to exit Website Editor):** Time to wrap things up and get your site online.

Let's make it official by connecting your domain:

7. **Click Settings Tab:** Jump over to the settings to connect your unique web address.
8. **Under Domain Click Connect Domain:** Find the domain dropdown and click the **Connect Domain** link underneath.
