WHY US

We are a family-owned and passionate team who believe there is more to our business than just trees. We're fully licensed and insured, ensuring that our services are not only trustworthy but also provide peace of mind to our valued clients.

EXPERIENCED

Established in 2010, Draco Concepts has come to be known as one of the most reputable and knowledgeable nurseries in the community of landscapers and horticulturists.

GUARANTEE

We offer a 12 month guarantee on all our products, granted all prep work and after care. We 100% back our products; we only sell the most luxurious and high quality trees.

ONE STOP SOLUTION

From landscape design, tree sourcing to stocking the highest quality of trees, you can trust Draco Concepts to make your experience a convenient one.

OUR TREES

DRAGON TREE | DRACAENA DRACO

The Dragon Tree native to the Canary Islands, Morocco, Madeira and Cape Verde. Our Dragon Trees held at our farm tolerate extreme temperatures including frost, full sun and also require little to no water. The Dragon Tree is easily our most favourite tree to incorporate in our landscape designs.

GRASS TREE | XANTHORRHOEA GLAUCA

The Blue Grass Tree is the most resilient out of all the Grass Tree species and in our opinion, the most spectacular. There are 28 species of Grass Trees, in which, are definitely iconic to Australia. The Grass Tree is rooted in Aboriginal history, having cultural and practical significance for Indigenous people.

OLIVE TREE | XANTHORRHOEA GLAUCA

The Mediterranean elements of the distinct twisted, architectural trunks and silver-green foliage make for the perfect feature tree. We have the option of the fruiting Olive or the non-fruiting Olive.

BOTTLE TREE | XANTHORRHOEA GLAUCA

The Bottle Tree is a native tree to Queensland, Australia. With its bottle-like shaped body, the Bottle Tree is the perfect piece to accommodate any home and garden. The Bottle Tree is a drought tolerant plant and can grow in a wide range of environments.

YUCCA ROSTRATA | BEAKED YUCCA

The Beaked Yucca is the only species of Yuccas that we grow. It's aqua blue, almost silver leaves that falls in a perfect egg shape. Requiring very little maintenance, the Yucca Rostrata is evergreen and will be a standout tree all year round, creating the signature look of the tree.

CACTUS & SUCCULENT RANGE

We also do a select number of pot plants in the cactus and succulent range. We supply: Golden Barrel, Agave Blue Glow, Queen Victoria Reginae, Argentine Saguaro, Monstrose cactus, Whales Tongue, Dragon Toe, Seed Grown Grass Tree
