**Your Local
Friendly Security
System Installers**

CCTV

Unified Security offers CCTV solutions for homes and businesses, with features like motion detection, 24/7 colour video, and smart analytics. We specialise and install IP CCTV systems & analogue CCTV systems.

Alarm Systems

Intruder alarm systems detect unauthorised entry, alert authorities, and ensure your premise is protected when you are not around.

Intercom Systems

Unified Security specialises in home and business intercom systems, offering audio, video, network based intercoms that integrate with electronic doors, gates or standalone locks for versatile security systems.

Access Control

Access control systems gives you greater visibility and control over those who access your premises. Whether your employees and customers enter and exit via a single door or move across a complex network of multiple access points, the right access control system provides enhanced security and convenience.
