ABOUT US

Mobile Batching Units Australia is a leading provider of volumetric mixers, parts, and services for on-site concrete production across Australia. With a strong commitment to quality and reliability, we specialise in supplying high-performance batching equipment and components that meet rigorous demands of construction and infrastructure projects.

Our expertise extends beyond equipment, offering comprehensive support services that include technical troubleshooting, calibration, material selection, and custom mix designs. We understand that every project is unique, which is why we work closely with our clients to optimise productivity and ensure the right mix for every application.

At Mobile Batching Units Australia, we are dedicated to providing industry-leading service, with a skilled team ready to assist in project management, equipment maintenance, and operational training. Our goal is to keep your batching units running at their best, minimising downtime and maximising output. With a focus on quality, efficiency, and customer satisfaction, Mobile Batching Units Australia is here to support you from project planning through to final production.

WHY US

Revolutionise Your Concrete Production with ProAll from Mobile Batching Units in Australia

On-Demand Concrete Production

Produce fresh, high-quality concrete directly at your job site, eliminating delays and reducing waste.

Customisable Mix Designs

Tailor your concrete mix to specific project requirements, ensuring optimal performance for every application.

Enhanced Efficiency

Streamline operations with precise control over mix quality and quantity, leading to significant time and cost savings.

KEY FEATURES

Commander 2.0 Control System

Experience advanced control with an intuitive interface, simplifying operations and training.

Automated Admix Systems

Ensure precise chemical admixture dosing for consistent concrete quality.

Electric Roll-up Tarp

Protect your aggregates with ease using our convenient electric tarp system.

BEST SUITED FOR

Commercial & Industrial Projects

Remote & Hard to Access Location

Specialised Concrete Mixes

P50

Compact yet powerful, ideal for navigating tight spaces without compromising on throughput capacity.

Water Tank
1500L

Aggregate Bin
3.53m³

Sand Bin
3.15m³

Cement Bin
2.6m³

PRODUCTION CAPACITY

5.4m³

PRODUCTION RATE

70m³/hr

BODY WEIGHT

5108kg

P85

Our mid-range dynamo, configured for high-volume production and versatile applications.

Production Capacity	6.5m ³
Production Rate	70m ³ /hr
Body Weight	5033kg
Water Tank	2250L
Aggregate Bin	5.21m ³
Sand Bin	4.55m ³
Cement Bin	3.2m ³

P95

The Largest and most robust mixer in our lineup, perfect for large-scale or long-term projects

Production Capacity	9.2m ³
Production Rate	70m ³ /hr
Body Weight	5764kg
Water Tank	2250L
Aggregate Bin	6.25m ³
Sand Bin	5.46m ³
Cement Bin	3.2m ³
