INTRODUCTION TO ESR

ESR HERITAGE

ESR Prestige has worked with Prestige Cars for over 30 years, establishing its first site in 1989. An extensive history of technical expertise & working closely with manufacturers has allowed ESR to develop one of the most bespoke accident repair centres in the Southern Hemisphere. ESR's current facility and operation is unrivalled and designed to strive to exceed expectations throughout. Customers travel all over New South Wales, as well as Interstate, because of a fantastic reputation and years of consistent customer service and quality control. ESR still remains as a 100% privately owned family business.
