

ABOUT US

Empire Energy is a family-owned business providing reliable solar installations with a focus on customer satisfaction. We prioritise quality over scale, ensuring each project meets the highest standards.

With Solar Accreditation Australia (SAA)-accredited installers and an integrated approach to sales, design, and installation, we deliver tailored solutions for families and businesses.

CONTACT US

We're committed to offering exceptional service and support to our valued customers and visitors. If you have any questions, concerns, or feedback, *we'd love to hear from you.*

OUR SERVICES

Residential Solar Installations

Empire Energy offers solar installations that lower electricity costs, reduce carbon footprints, increase property value, and may qualify for government incentives.

Residential Battery Storage

Residential battery storage offers savings, energy independence, backup power, a smaller carbon footprint, and an increased property value.

Commercial & Residential EV Chargers

EV Chargers offer convenience, independence from petrol stations, reduced carbon emissions, and lower fuel costs.

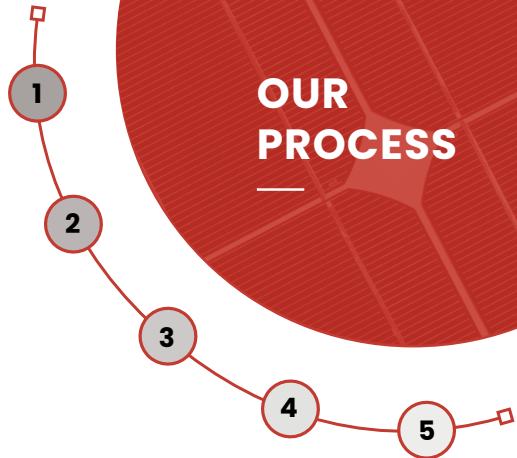

Commercial Solar Installations

Commercial solar cut energy costs, deliver high ROI, boost sustainability reputation, show corporate responsibility, and protect against rising energy prices.

Inspection, Monitoring & Maintenance

Empire Energy's inspection, monitoring and maintenance services can prevent costly repairs and ensure warranty compliance. Our visual inspections include comprehensive and detailed reporting.

OUR PROCESS

Deposit

This secures your pricing and terms, and allows us to order materials.

Connection

Our team contacts the supply authorities and submits relevant connections applications on your behalf.

Installation Date Confirmed

We work out a time that is suitable for you to get your project underway.

Installation

Not only is your system installed but we also go through how the system works, monitoring set-up and money saving tips.

Post Installation

Once your new system is up and running, we help to initiate smart meter recalibrations or upgrades with your retailer. You'll receive follow up and ongoing support as part of your installation.
