The Sustainability Shield

With the global landscape becoming more and more unpredictable sustainability can be more than just a corporate responsibility, it is now vital for business survival and growth.

Terra 2026 will bring together industry experts, business leaders and policy specialists to explore how embedding sustainability principles can insulate organisations against inflation, resource volatility and geopolitical shifts.

Key Discussion Focuses:

- ❖ **Financial insulation and resilience:** Using energy efficiency and resource management to buffer against market volatility, rising costs and inflation.
- ❖ **Simplified reporting standards:** The latest guidance on EFRAG's Voluntary ESRS for SMEs (VSME) and practical frameworks for companies outside mandatory CSRD scope.
- ❖ **Geopolitical realities:** Decoding what global trends and developments mean for local supply chains and energy security.
- ❖ **Actionable measures:** Clear, cost effective steps to manage your environmental and social footprint, meet data requests and safeguard profitability.

Why should you support TERRA?

- ❖ Showcase your commitment to sustainability and responsible investing.
- ❖ Be a voice for good business practices.
- ❖ Be part of cutting-edge discussions on ESG and impact investing.
- ❖ Network with international experts and potential clients, fostering valuable connections.
- ❖ Get access to valuable contacts in the field.

What are the associated benefits of supporting TERRA?

- ❖ Build brand recognition for the steps being taken to leave a lasting legacy.
- ❖ Gain visibility among key industry players, including regulators, investors and business leaders.
- ❖ Challenge your perspective on how doing good can be good for business.
- ❖ Engage with employees and customers that have a strong value-centric approach to employer and product acquisition.
- ❖ Invest directly in sustainable businesses.
