

THE *Circle*

A mastermind mentoring circle for **connection, community, contribution** and **collaboration** based on the premises of Leading in Love.

Who is it for?

Women who've participated in LiLMP, mentorship, deep authentic seekers and participants of 40 day circles.

How is it different from LiLMP or other programs with Dipika?

Well, this circle is essentially a master mind circle. That means all the masterful minds in the circle, including your's and mine, listen, tune in and see what is wishing to emerge and what you can do to be more fully present and on the trajectory toward creating what you love. That be in life, relationships, community, work, business, service, health, wellbeing, adventure, all of it...that place where it gets real and so do you.

We tap into the intelligence, living wisdom and experience of the group as a powerful resource to find solutions and effective ways of being with what is alive and being worked through you and for you.

You get resources, the shared wisdom and living experience of the group participants and me. This includes being able to refer you back to all the areas we have covered already and the library resources available to access, leverage and utilise.

There is a pulsing collaborative energy shared in The Circle.

This is about allowing what is wishing to unfurl.

Allowing to unfurl is immensely fulfilling for you and me both. It's revealing grace and inspiring for the group too. This is how the synergy and dynamics of the circle work.

We are collaborating and co-creating with the conscious field of energy that transcends linear space and time. This means it can be utterly mysterious, non logical, beyond the grasp and comfort of the thinking mind. It's the play and field of our community.

What may you benefit from the Circle?

A Deepening, attunement, growth, connection, community, expansion. The deepening of acceptance, allowing and being with all aspects of the whole business of you. Whether this be Self, health, relationship, work project, community service, business, your spiritual path....all of it! It's about the deepening of authentic relationship and recognition of Self.

New perspective, traction and leveraging of projects whether that be you, something you are plugged into or wishing to be so.

While it is preferable for you to join the calls live, the calls will be recorded and available 24-48 hours after the session.

The Circle Structure:

- 12 monthly scheduled 120 min group calls online via Zoom.
- Optional: Plus 3 x 1:1 calls sessions with Dipika throughout the year.
- While there is a scheduled day and time for our monthly calls, this is your circle and depending on your individual availability we can possible adjust this depending on the other participants.
- A private community forum (via Signal, What's App or Circle)
- Each call will commence with invocation and attunement in coming together. Check-in as to what is current and alive for you and that which you wish to bring to the Circle. Tuning in to what is seeking to emerge and collaborative service to that for individuals. Reflection to consolidate and recognize what's revealed and landed. And, identifying your Bridge action.

The Circle Commitment

- Your active participation and contribution to the Live calls as much as possible. That means your willingness to serve and BE served.
- A regular sadhānā practice that supports your conscious growth and awareness. This can be as simple as a daily sound based practice or meditation.
- Engagement and participation when invited into mantra programs and practices where possible.

Your Investment
