

Executive Leadership Brief

The Judgment Architecture™ Leadership Intensive

For leaders navigating faster decisions, increased pressure, and less margin for error

Purpose:

If your team is experiencing decision fog, unclear ownership, or decisions moving faster than they are challenged, this intensive is designed to strengthen leadership judgment, decision clarity, and accountability in AI-influenced decisions. It helps leaders bring structure, challenge, and ownership to how decisions are made so they hold under pressure and can be defended when challenged, as decision velocity increases and the cost of weak ownership compounds quickly.

What this addresses:

- **Decisions** accepted faster than they are challenged
- **Outputs** that “look right” and move unchecked
- **Ownership** unclear and accountability lacking across decisions
- **Misalignment** across teams and functions
- **Risk** increasing as speed and scale outpace challenge
- **Unseen** blind spots across teams

Program at a Glance

- Half-day intensive, ~4 hours
- Leadership teams and decision-makers
- Data, AI, Technology, Transformation
- Executive framing + applied discussion
- Decision Discipline Framework™
- Business Value Compass™
- Practical takeaways for real decisions

Benefits/ Outcomes:

- **Stronger judgment** in high-pressure decisions
- **Clearer ownership** and accountability
- **Better challenge** before decisions move
- **Reduced rework**, escalation, and hidden risk
- **Faster decisions** that hold under pressure
- **Greater confidence** in AI-influenced decisions

What Participants Experience:

- **Leadership framing** on executive judgment in AI-influenced decisions
- **Application** of The Judgment Architecture™ to a real leadership decision brought into the room
- **Decision Discipline Framework™** and Business Value Compass™ in practice
- **Structured challenge**, peer perspective, and practical takeaways to improve decision discipline

Facilitator:

The Leadership Intensive is led by Dora Boussias, an executive advisor and global voice in Data & AI leadership. With over three decades of experience leading enterprise-scale technology and transformation decisions, Dora works with leadership teams to strengthen judgment, decision clarity, and accountability in high-pressure, fast-changing environments.

If this reflects what you're seeing, let's discuss whether your leadership team is a fit for the Intensive. dora@doraboussias.com
