THE STORY

FROM AMERICAN ROOTS TO THE CARIBBEAN

Gringo Greg is an American DJ whose connection to Mexico was never a marketing plan. He splits his time between Cancún, the Riviera Maya and Oklahoma City, and roughly seven years inside the club and nightlife culture of the Caribbean coast shaped how he plays.

Music was always part of his life. For years, raising a family and building a career took the front seat. The music never left, and now he's back to it as his next chapter.

Mexico is where it came together. A scene built on electronic music, travelers from everywhere, Latin culture, beach clubs, rooftops and late nights. Greg kept coming back, built real relationships with local DJs and promoters, and learned to read a room the way that coast does.

His focus is the experience, not just the tracks. Private events, Caribbean beach clubs, nightclubs and festival grounds all get the same energy and connection.

DOS TOROS

GRINGO GREG × DJ KAMZ

TWO DJS.
TWO CULTURES.
ONE ENERGY.

Gringo Greg is the individual artist.
Dos Toros is his separate collaborative project with DJ Kamz, booked on its own.

Greg met DJ Kamz through the Cancún music community. One American, one Mexican. What started as a friendship built on respect for the music turned into real chemistry behind the decks.

Two friends, two countries, two bulls. The contrast is the point: American club energy meets Mexican and Caribbean heat, and the music becomes the common language.

GRINGO GREG

The hype. Brings the energy, connects with the crowd.

DJ KAMZ

The technician. Keeps it flowing without killing the vibe.
