

We were excited to have Reelin Family Fun join us for the St. John the Baptist Block Party, and they truly exceeded our expectations.

Before the event even began, I had the chance to try the fishing game myself. After catching a fish at *Lake JayJer*, I remember thinking, “This is going to be great.” And it absolutely was.

The kids had an incredible time taking part in the different activities. What stood out most was seeing their excitement and hearing them talk afterward about how much fun they had.

Reelin Family Fun brought more than just games to our event. They created a fun, engaging experience that encouraged kids to get involved, brought families together, and added so much energy and excitement to the block party.

Jeff and Jeremiah were wonderful to work with and were personally engaged with families throughout the event. Their enthusiasm and interaction with the kids made a real difference.

We were very pleased with what Reelin Family Fun brought to St. John the Baptist, and I would gladly recommend them to other churches, schools, and organizations looking for a fun, family-friendly experience.
