## Edu for Every Child

Under the leadership of Regional Director Judy Oricho, USIDHR's Edu for Every Child Program successfully delivered educational support to 80 students at Bulanda School in Busia County, Kenya. The initiative provided uniforms to 40 children, distributed books to 20 students, and supplied lockers and chairs to an additional 20 students. This targeted intervention addressed key educational barriers by ensuring access to essential school supplies, proper attire, and adequate learning infrastructure, thereby supporting improved educational outcomes for underserved students in the region.

## Edu for Every Child

Another Back to School program was carried out in Kenya, led by USIDHR Regional Director Ms. Judy Oricho in partnership with Scoon – Kenya. The initiative engaged hundreds of children in activities that promoted both education and sustainability. Key components included the provision of scholarships to help pupils continue their studies, support for students preparing for final examinations, and the launch of Tree Planting Week, during which seedlings were donated and planted in schools. The program reflected USIDHR’s commitment to empowering children through education and fostering environmental awareness as a pathway to long-term societal growth.
