## PAKISTAN

### Edu for Every Child

USIDHR has supported 200 vulnerable children ages 10-17 from rural areas in Pakistan. Together with our in-country partners from MAPS, we were able to bring the Edu Boxes to Pakistan and help 200 Pakistani children in danger of getting their education disrupted due to lack of resources. Children from different schools and different areas were identified and selected to be a part of the program. They all received Edu-boxes containing uniforms, shoes backpacks, school notebooks, supplies and more.
