

Manitoba Association for Safety in Healthcare

MASH Star of Safety Excellence in Healthcare

Manitoba Association for Safety in Healthcare is pleased to present the MASH Star of Safety Excellence in Healthcare. This award is for individual/safety representatives or a safety and health committee who have shown leadership and commitment for safety and health program initiatives in the workplace and who inspire others to make workplace safety a priority. This award is open to all healthcare workers in Manitoba. For more information or to submit a nomination, please email hello@mashmb.ca **Deadline for submission is July 24, 2026.**

Name of Nominee	Training attended	Initiatives	Organization they work for.

Criteria:

Individual/safety representative or safety and health committee must work for a healthcare organization which is Safe Work Certified or actively working towards certification.

To be eligible, individual/safety representative or safety and health committees must have successfully completed one MASH training course.

Course suggestions include but are not limited to:

- Maintenance Auditor Training
- Principles of Safety and Health Management Systems
- Safety and Health Leadership
- Workplace Safety and Health Committee and Representative

Process:

Present the nomination committee with the initiatives or actions the individual/safety representative or safety and health committees have done in relation to leading safety initiatives.

The Nomination committee selects one individual/safety representative or safety and health committee to receive the MASH Star of Safety Excellence.

Award:

Individuals will be presented with an award at the annual Safety Gala.

Individuals will be required to make a video about their safety initiative or what safety in the workplace means to them.
