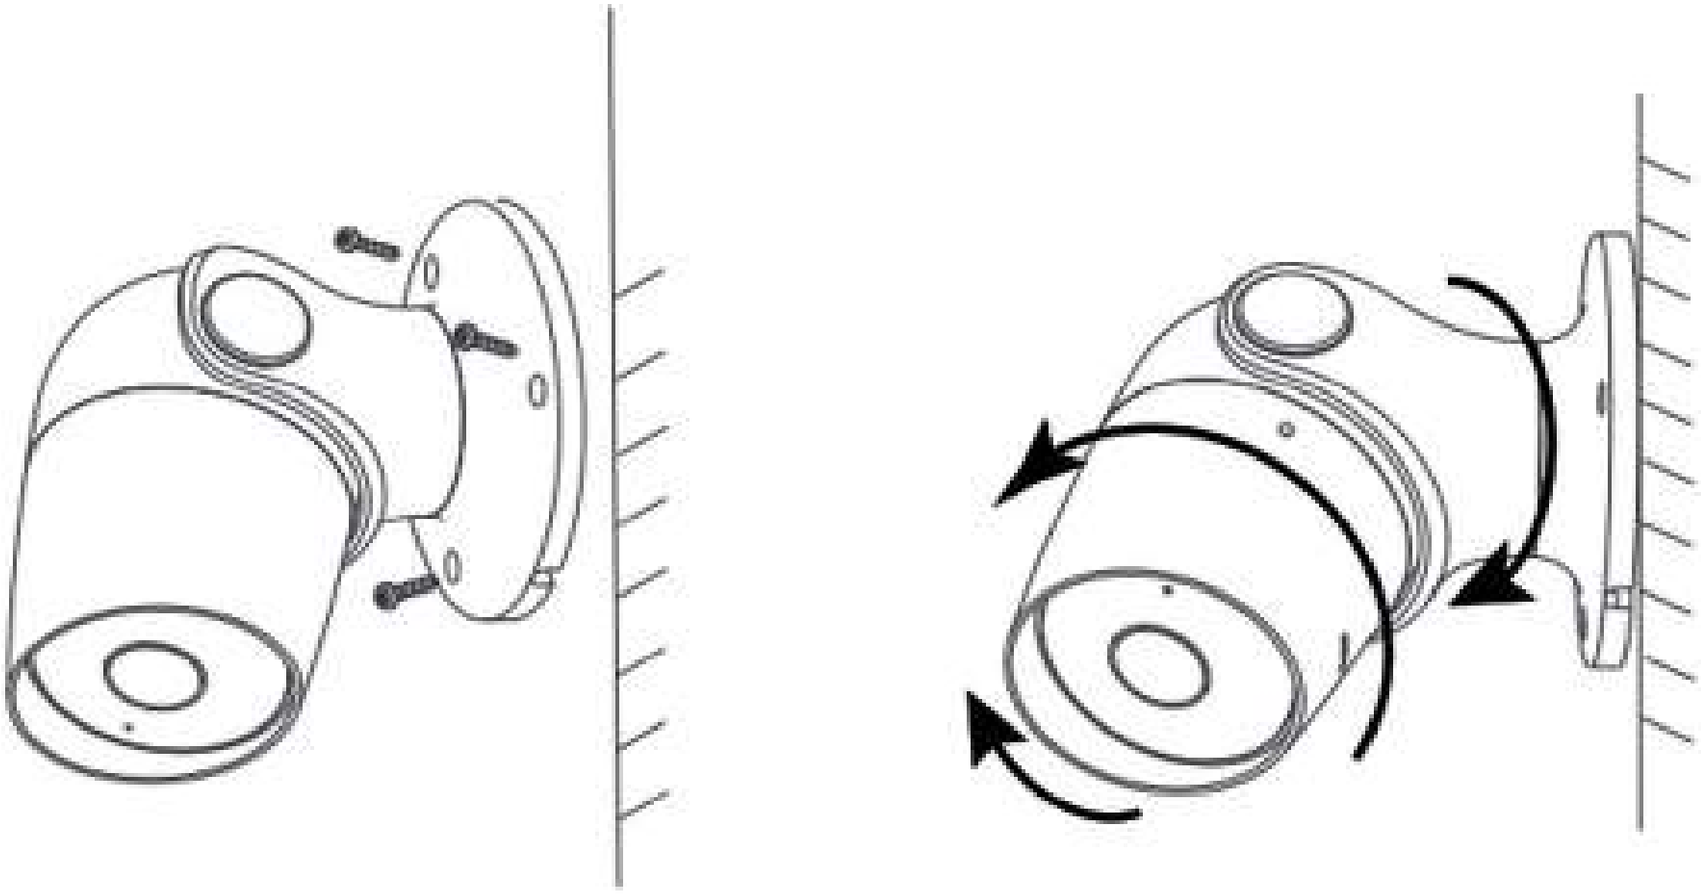
How to reset Oscar

Use the reset pin provided to hold down the button on the front of the camera for up to 10 seconds until the camera chimes twice and the LED is flashing red.

Installation



Easy Mounting

Use the provided wall screws to mount the camera onto the wall.

Adjust the cmera angle according to your requirements.

FAQ's

Q. I have not received my verification code?

A. You will have to check whether the mobile phone or email address you have used has been entered correctly.

Q. Oscar is not scanning the QR code?

A. There is a plastic film on the lens that needs to be removed. Simply remove this and then Oscar will be able to scan the code.

Q.Oscar is not connecting to WiFi?

A. There could be a number of reasons why Oscar is not connecting. First ensure the correct WiFi network has been selected and ensure the WiFi password has been entered.

Oscar can only operate under the 2.4 GHZ wireless frequency. You may have to change your router settings to allow Oscar to connect wirelessly. If you are unaware how to change simply get in contact with your broadband provider.

Q. The two way audio is not working?

A. Please ensure the app permissions have been turned on in the mobile phone settings. You will also have to turn this feature on in the basic settings for the camera.
