

Give Your Employees More Convenient Access to Physician-Led Care

Flexible healthcare-access and metabolic-health options for local employers and their teams.

When routine care costs half a workday

Employees can lose hours to travel, waiting rooms, and fragmented follow-up. Phoenix Medical Spa PLLC offers qualifying organizations a way to explore physician-led access as an employee benefit that complements - rather than replaces - major medical coverage.

Employer Health Access Options

Employer-Sponsored DPC Memberships

Sponsor all or part of eligible employees' physician-membership costs.

Same-Day Virtual Access

Convenient virtual access for appropriate routine and non-emergency concerns, subject to clinical appropriateness and availability.

Executive Metabolic Health

Personalized support addressing weight, diabetes risk, insulin resistance, nutrition, sleep, and sustainable health goals.

Medical Weight-Management Support

Physician-led medical weight-management options based on individual medical needs, eligibility, safety, and long-term planning.

Workplace Health Education

Education on metabolic health, diabetes prevention, menopause, nutrition, muscle preservation, and healthcare access.

Group Enrollment Opportunities

Qualifying groups may be eligible for customized participation structures or reduced enrollment fees based on program terms.

How This May Support Your Organization

- More convenient access to a board-certified internal medicine physician
- Less disruption when employees need appropriate routine care
- A distinctive recruitment and retention benefit
- Personalized support for metabolic and chronic-health concerns
- Virtual access for appropriate concerns and workplace health education led by a physician

A SIMPLE, CUSTOMIZED PROCESS

Built Around Your Team - Not a One-Size-Fits-All Package

1

Tell Us About Your Organization

Complete the Employer Health Access inquiry so we understand your team size, benefit structure, and goals.

2

Meet With Dr. Hooks

Use the complimentary 20-minute consultation to discuss access challenges, workforce needs, and possible program pathways.

3

Explore the Right Structure

If there is a mutual fit, Phoenix Medical Spa develops a written program concept based on eligibility, group size, services, access expectations, and employer participation.

Designed for Local Organizations

Serving Melissa, Anna, McKinney, Allen, Plano, Prosper, Frisco, and surrounding Collin County communities. Programs may be relevant for professional-service firms, medical and dental offices, law and accounting firms, real-estate teams, childcare organizations, skilled trades, home-health organizations, salons and wellness businesses, faith and community organizations, and other small-business teams.

Important Information

- Phoenix Medical Spa membership services are not health insurance and do not replace major medical coverage.
- Services are subject to clinical appropriateness, eligibility, availability, practice capacity, and written program terms.
- Medication is never guaranteed; prescription eligibility is determined individually.
- Do not submit private medical information through the employer inquiry form. For medical emergencies, call 911.
