Made in Britain

FACTORY

All of our cabinets are produced in our own factory in the UK. This gives us the hands on benefit of being able to closely manage the quality of the products that we are producing and to ensure that they meet our high standards at all times. All cabinets are made with double sided 18mm colour co-ordinated boards to match or complement your doors and all come with soft-closing hinges and drawers as standard. Special sizes and requirements along with over 100 different colours are all options available with us.

BESPOKE - MADE TO MEASURE

Most of our kitchens and bedrooms are made to measure allowing us to ensure that every inch of space in your room is used to it's full potential. Standard off-the-shelf sizes can mean that unused 'void' areas are left in the room but our bespoke option allows us to transform any area, of any size, by making cabinets the perfect size to fit the space available.

CABINET CONSTRUCTION

- 1 Worktops in Corian, Granite, Technistone, Solid Wood or Laminate are available in three widths and more than 50 colours.
- 2 18mm solid backs.
- 3 All cabinets are made from double sided 18mm colour co-ordinated board to complement or contrast to your chosen doors. Our cabinets are available in over 100 different colours.
- 4 8mm beech dowels to add strength to the joints.
- 5 Blum® LEGRABOX soft close drawer system with a 16mm solid base and back panel; as standard.
- 6 Blum® CLIP top BLUMOTION soft close hinges eliminate the noise of slamming to enhance the quality of your cabinets.
- 7 Fully adjustable colour co-ordinated shelves.
- 8 150mm adjustable legs for uneven floors.

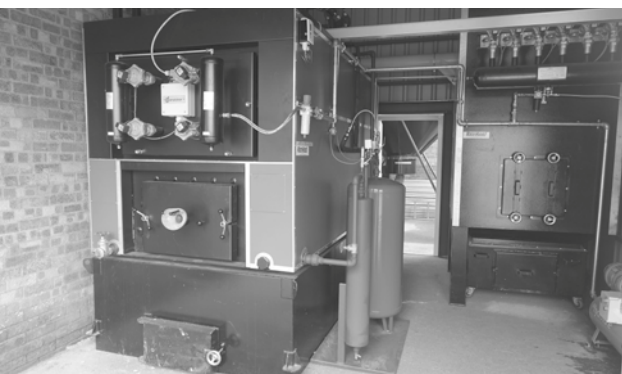

CABINET GUARANTEE

We are very proud of the workmanship that goes into the cabinets that we build and are so confident in the rigidity of them that we offer a 25 year cabinet guarantee. In the unlikely event that, subject to day-to-day wear and tear, the cabinets should not be fit for purpose we will repair or replace the faulty cabinet for a period of 25 years from the date of purchase.

Terms and conditions apply.

*Cabinet warranty excludes door/drawer fronts and handles - shown for illustration purposes only.

Beyond the kitchen

Open plan living spaces are becoming ever more popular for the sociable, warm and open atmosphere they encourage and their multi-functional nature. Our 'Beyond the Kitchen' concept allows ease of continuity between various living zones with the introduction of complementary furniture pieces such as media units, sideboards, coffee and side tables.

Throughout the brochure you will also find fabulous examples of pantries, bootrooms, laundry rooms, home offices and bedrooms, all of which combine clever functionality with stunning creative design.

Tailored Bespoke

Bespoke Kitchens that are tailor made for your room allow the available space to be used to its full potential. Your room should be functional and reflect your personal style and taste and this collection gives you a vast array of colours and textures to make this possible.

ROMA

Roma is a must-have for an exceptional modern style. This ultra-high gloss reflective finish adds a luxurious touch to your home, giving your kitchen a fresh and vibrant look. Curved doors and 38mm panels are available to add extra features into your room.

Timeless Elegance

Timeless Elegance represents enduring sophistication and luxury with kitchens that will last and last. This classic collection brings traditional elements to the fore resulting in a stylish yet homely kitchen space that feels like it has always been there.

CLIFDEN

Inspired by the simple beauty of the traditional shaker design, Clifden combines a slim frame with a smooth painted finish to create something truly impeccable. A contrasting palette of muted and rich tones works harmoniously with design elements such as double panel doors, plain dresser frames, an overmantle shelf and beaded panelling to create a truly majestic kitchen space.

- 4 Integrated dishwasher cleverly framed with handleless rail for a truly streamlined look.

Internal Solutions

From dark, hard to reach corners to awkward pieces of cookware, we offer a range of indispensable internal solutions so you can be free to enjoy an extremely well organised kitchen.

Choose from a selection of storage options and integrated pull-out bins, all designed to provide you with practical, functional accessories without compromising on the overall look of your kitchen.

BASE UNIT STORAGE

Keeping your kitchen organised for both practical and aesthetic reasons is crucial. However, with so many things to store it can often feel like an uphill battle. Having the appropriate storage cabinets is essential for this reason.

Pull-out storage fitted into base units can make items easily accessible and, with the addition of narrow storage units, can maximise valuable storage within your kitchen by utilising even the smallest of spaces.

CORNER STORAGE

With the natural shape of our homes, corner cupboards aren't something we can escape. Turn those dark, hard to reach spaces into practical, easy to reach areas with our cleverly designed corner pull-outs.

Corner solutions offer effortless opening and ultimate practicality. Trays swing gracefully out of the cabinet completely and independently. A high load capacity makes them suitable for housing heavy pots and pans, crockery or even small kitchen appliances.

LARDER STORAGE

You don't need a huge kitchen to create space, the trick is to use what's available to its full potential. Look for ways to maximise storage in the area that does exist.

Larder storage is one way you can make the most of a tight space and still get everything organized. Gone are the days where food items slowly worked their way to the back of the cupboard – with a pull out larder unit, or drawers, you can easily see what's there without having to empty out the contents first.

PANTRY UNITS

Add a luxurious dimension to your kitchen with the inclusion of a pantry unit. A versatile way to neatly and conveniently store your everyday kitchen essentials.

Opt for a combination of concealed drawers, open shelving and spice racks. Pantry units are also perfect for hiding away smaller kitchen appliances or creating a separate workstation.

DRAWER INSERTS

Drawers are often the most overlooked storage area in the kitchen - they don't have to be just for cutlery.

With the right drawer storage solutions you can expand on space to store baking trays, saucepans, crockery and dry goods. Use different combinations of dividers to create the perfect storage solution for your needs.

PULL-OUT BINS

Keep your floorspace clutter-free and ensure your kitchen remains clean, tidy and hygienic with one of our cleverly concealed integrated bins, a real benefit for smaller kitchen spaces.

Depending on the size of your household, we offer a range of soft-close pull-out bins with one or more compartments and varying capacities.

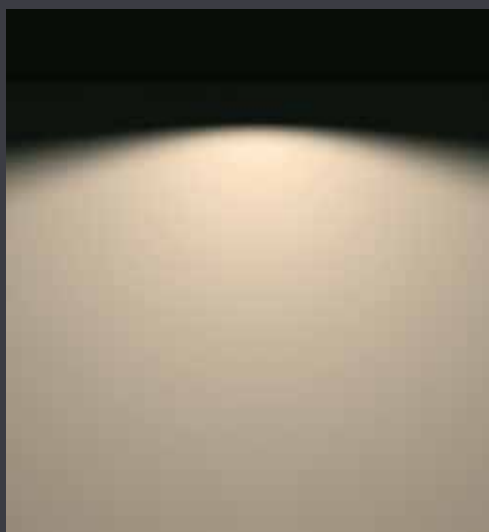

LED Lighting

A carefully considered kitchen lighting scheme can completely transform the look and feel of your space. From prepping a meal for the family, to entertaining friends around the table, your choice of lighting not only sets the mood, but it can also enhance key design features within the kitchen itself. We offer a range of LED lighting solutions to meet both your practical and aesthetic needs.

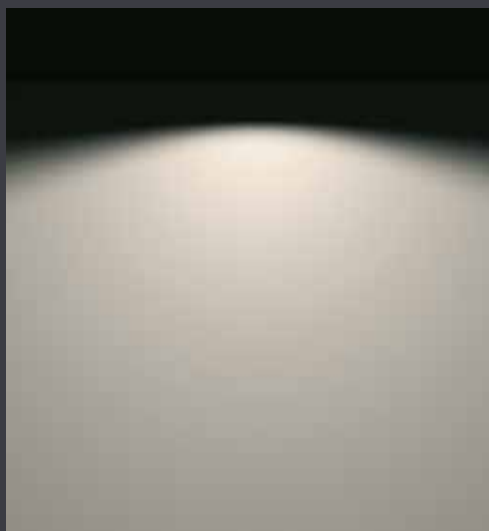

COLOUR TEMPERATURES

LED's are available in two colour temperatures, Warm White and Natural White. The colour you choose can have a major impact on the overall look and feel of your kitchen space.

Warm White emits a yellow tone and naturally brings out the softer tones in painted kitchens with timber worktops and traditional tile finishes.

Natural White gives a cool crisp effect and enhances more modern kitchens with gloss, concrete and stainless steel finishes.

TASK LIGHTING

Sufficient lighting is a must-have in task based areas where hobs, sinks and even worktops are in use, as this aids safe cooking, washing and prepping. A range of LED options are available in aluminium and an on-trend matte black finish.

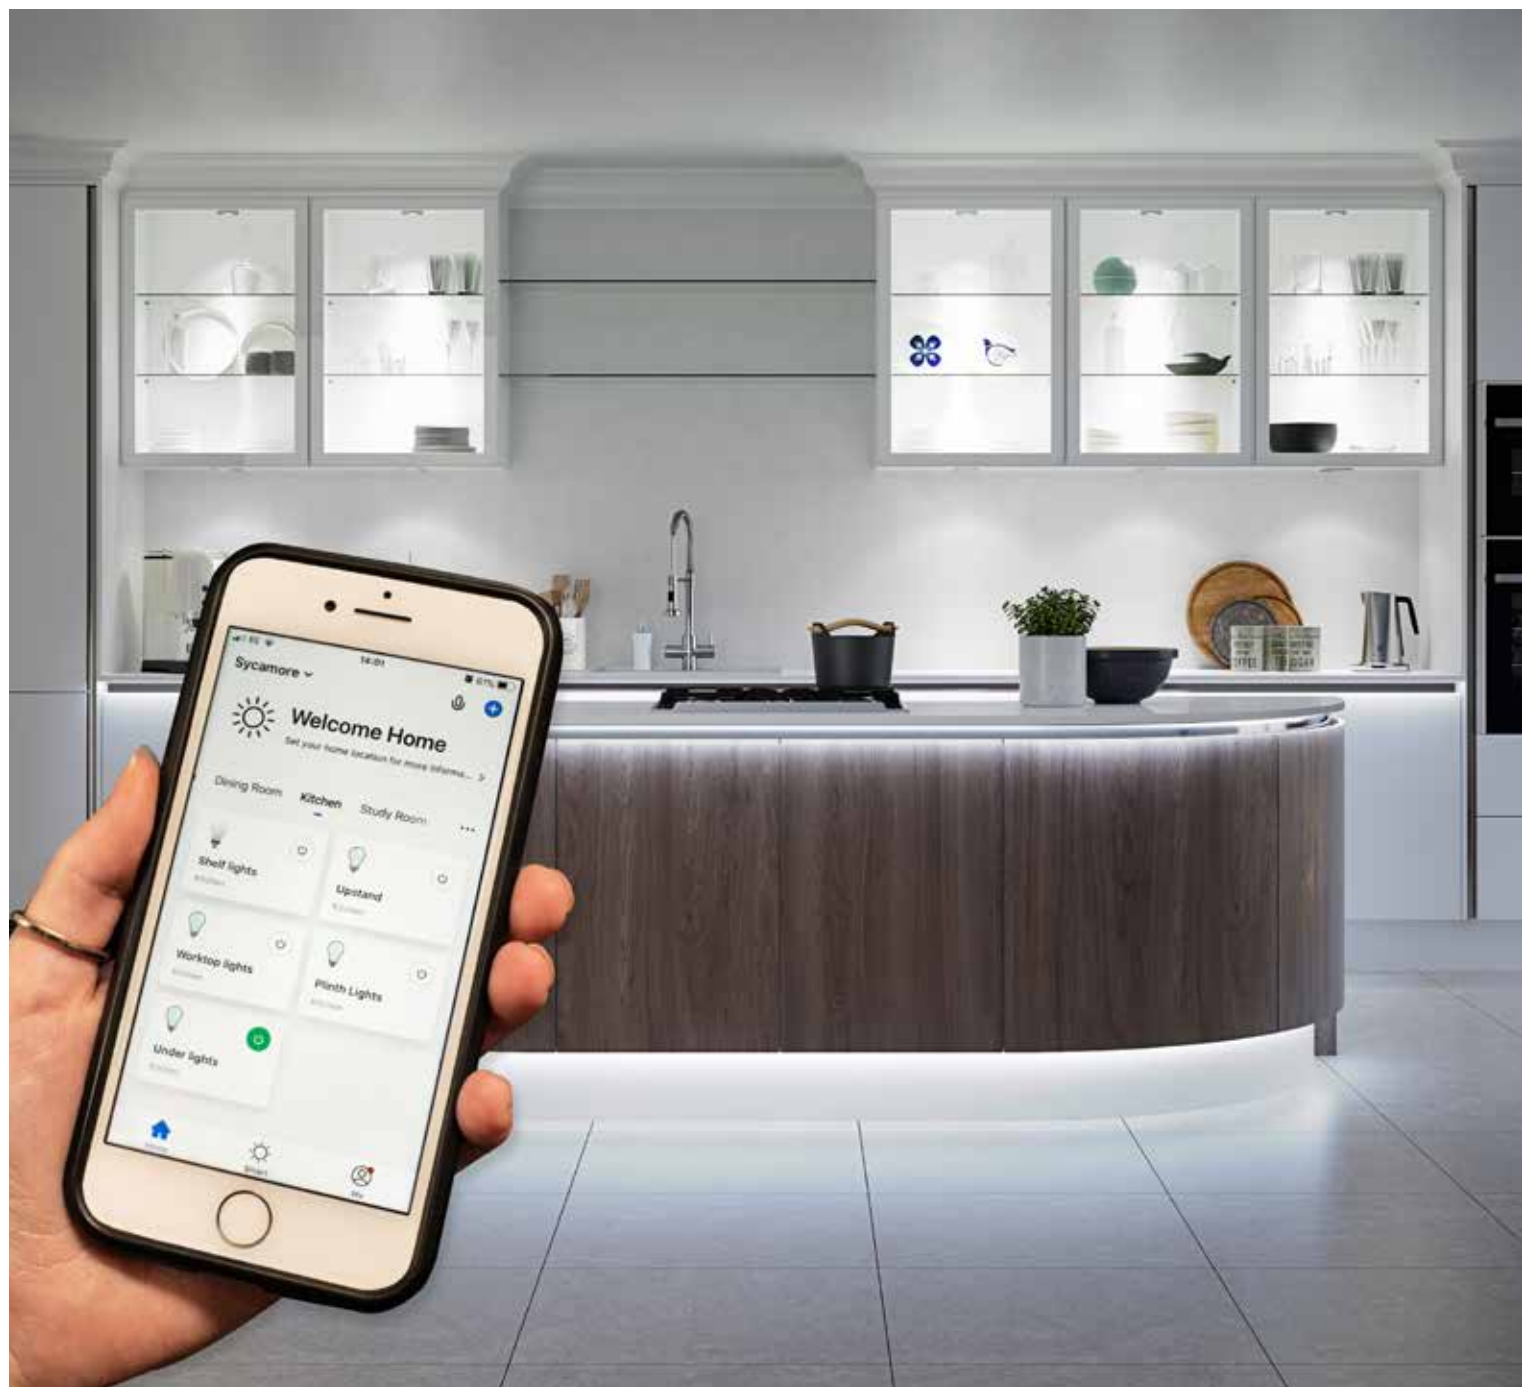

Under cabinet LED lighting in a trendy matte black finish.

MOOD LIGHTING

Lighting that creates ambience in a kitchen setting can provide the most stunning effect and can transform a kitchen space better than anything else. Opt for recessed LED lighting under worktops, concealed above wall cabinets or even along the bottom of base units.

CONVENIENCE LIGHTING

Combine beautiful, functional lighting with everyday practicality through a range of switches and control modules for ultimate convenience. Choose from a range of wireless touch switches or control lighting from your smartphone via a Wifi app, or through voice control systems such as Alexa or Google Voice Control.

Effective cabinet lights combined with LED strip lighting installed underneath the worktop surface of an island are clever ways to create the perfect atmospheric mood.

Handle Choices

Choosing the right handles is a small but all-important decision that will transform your kitchen's appearance. Consider the variety of finishes, from luxurious brass and chrome to the neutral warmth of nickel or the stark contrast of black. Embrace the diverse design options with round or square knobs; shapely cups and textured bar handles to name a few. Whether you are aiming for timeless elegance or that contemporary chic aesthetic a handle can make all the difference.

HANDLES

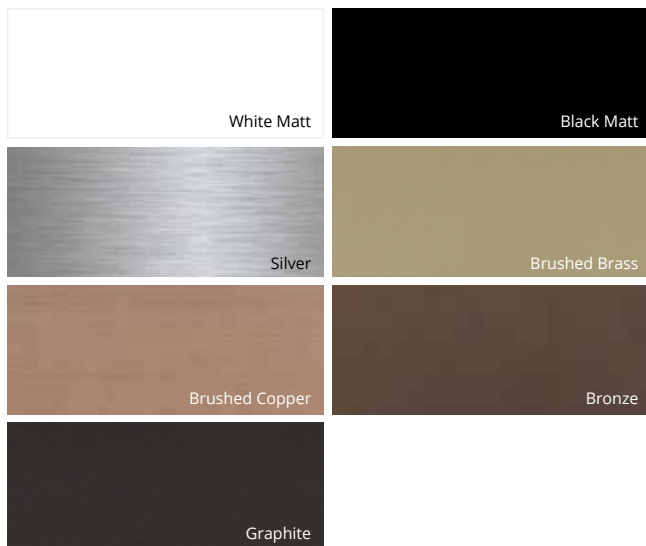

The most used piece in the whole kitchen - the handles! Cabinet handles are one of the first things that guests will notice about your kitchen.

Handles and knobs can really bring the whole kitchen design together and become a key, yet subtle feature. A simple design can be transformed using a decorative handle, whilst a traditional design can be given a contemporary edge by using stainless steel. A handle can transform the overall look of your kitchen.

HANDLELESS RAILS

Complementary or contrasting, whatever your personality you can create a true handleless kitchen that's as striking as it is sleek; with rails available in a selection of finishes.
