Process	50% of exam questions	Planning, executing, monitoring, and controlling
Business Environment	8% of exam questions	Strategy, compliance, benefits realisation

01

Lesson 1: Business Environment

PMI® Authorized Exam Preparation – ECO 2023

Understand the strategic context in which projects operate and how to align project outcomes with organisational goals.

- **Foundation of Project Value:** Defining 'Value' in a business context — financial, social, and strategic dimensions.
- **Strategic Alignment:** Ensuring projects deliver on organisational goals and portfolio priorities at every stage.
- **Project Compliance:** Navigating legal, regulatory, and safety standards across industries and jurisdictions.
- **Organisational Change Mgmt:** Supporting the human side of project delivery, adoption, and transformation.

PRACTICAL APPLICATION

Developing a Benefits Realisation Plan and assessing project alignment with corporate strategy.

02

Lesson 2: Start the Project

PMI® Authorized Exam Preparation – ECO 2023

Lay the groundwork for a successful project launch — from stakeholder mapping to team chartering and vision alignment.

- **Stakeholder Identification:** Mapping influence and interest — power/interest grid and engagement strategies.

- **Team Chartering:** Establishing team agreements, values, and ground rules for high-performance delivery.
- **Project Vision:** Building consensus around the definition of success with all key stakeholders.
- **Methodology Selection:** Deciding between Predictive, Agile, or Hybrid — and why the choice matters.

PRACTICAL APPLICATION

Creating a robust Project Charter and engaging key stakeholders in a kickoff simulation.

03

Lesson 3: Plan the Project

PMI® Authorized Exam Preparation – ECO 2023

Develop a comprehensive roadmap for execution — covering scope, cost, risk, procurement, and quality planning.

- **Scope Management:** WBS creation, backlog management, and maintaining the scope baseline throughout.
- **Schedule & Cost:** Critical path method, agile estimating, earned value analysis, and budgeting.
- **Risk Management:** Identification, qualitative/quantitative analysis, and structured response planning.
- **Procurement & Quality:** Planning for external resources, vendor management, and quality assurance standards.

PRACTICAL APPLICATION

Building a comprehensive Project Management Plan (PMP) or Agile Release Plan.

04

Lesson 4: Lead the Team

PMI® Authorized Exam Preparation – ECO 2023

Master the art of servant leadership, emotional intelligence, and cross-cultural team empowerment and motivation.

- **Visionary Leadership:** Inspiring and motivating diverse, distributed teams toward shared outcomes and goals.
- **Conflict Management:** Turning conflict into constructive dialogue and team-strengthening opportunities.
- **Emotional Intelligence:** Managing self and others under pressure — the PM's core leadership competency.
- **Virtual Team Leadership:** Collaborating effectively across time zones, cultures, and digital collaboration tools.

PRACTICAL APPLICATION

Role-playing conflict resolution scenarios and designing a team development roadmap.

05

Lesson 5: Support Team Performance

PMI® Authorized Exam Preparation – ECO 2023

Optimise delivery, remove obstacles, and build a continuous improvement culture within your project team.

- **Continuous Improvement:** Retrospectives, lessons learned, and embedding a kaizen mindset into delivery.
- **Performance Verification:** Tracking KPIs, burn-down charts, and Earned Value Management (EVM) metrics.
- **Issue Resolution:** Systematically removing impediments, blockers, and managing escalation paths.
- **Mentorship & Transfer:** Coaching team members for long-term growth and sustainable knowledge retention.

PRACTICAL APPLICATION

Conducting a Sprint Retrospective and analysing Earned Value Management (EVM) data sets.

06

Lesson 6: Close the Project / Phase

PMI® Authorized Exam Preparation – ECO 2023

Ensure orderly closure, full knowledge retention, and stakeholder satisfaction at project or phase completion.

- **Transitions:** Handing over deliverables to operations or clients through a structured process.
- **Knowledge Transfer:** Archiving records, updating organisational knowledge bases, and capturing lessons.
- **Financial Closure:** Finalising contracts, releasing resources, and documenting financial outcomes.
- **Recognition & Celebration:** Acknowledging team contributions and closing with purpose and full professionalism.

PRACTICAL APPLICATION

Executing a formal Project Closure Report and completing an Administrative Closure Checklist.
