TESTIMONIALS

PATRICK SCOTT

Can't recommend them enough. Professional, friendly, experienced, and above-and-beyond customer service. I used West Chester Studios to record a series of videos for my YouTube channel earlier this year. The results were incredible and I'll definitely be a repeat customer

DEE VOCI

West Chester Studios is an absolute gem! Gabe and Matt are incredible—professional and welcoming. The space itself is neat and clean and makes for a great backdrop! From start to finish, the process is seamless, making it easy to focus on creating great content. Highly recommend!

KATIE PATILLE

I had a great experience at West Chester Studios! I had the space for two hours and was able to get 4 separate podcast episodes recorded. All of my guests felt comfortable, the equipment worked great and I had my recordings in my inbox before the end of the day. I will definitely be back!

FAQ

Can I come solo?

Yes! Own the spotlight or come with a group.

Do you have a teleprompter?

Yes! Record with confidence by requesting a teleprompter for your session.

Why would I need editing services?

While the raw live cut version is sufficient for most, our editing services will give that professional touch to your content that will help you stand out from competition.

When can I expect my files?

Non-edited content is delivered the same day!
Edited content delivered typically within 72 hours.

Am I able to livestream?

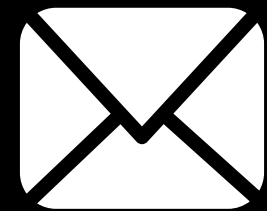

Yes! Our equipment is capable of streaming your podcast.

Is virtual podcasting an option?

Yes! Even if your guest is not physically with you we can still have you both on!
