VETALYZE

VETERINARY DIAGNOSTICS.
AUSTRALIAN BACKING.

Training. Support. Confidence beyond the purchase.

HEALVET HV-FIA 3000 PLUS

On-site testing. Australian backing.

A quantitative veterinary immunoassay analyser, with the equipment guidance and local people to help you get started.

FOR VETS, STUDS & BREEDERS

One analyser. Tests that fit your work.

01 Foal IgG

Assess antibody transfer in newborn foals.

02 Equine SAA

Assess and monitor inflammation with your vet.

03 Canine progesterone

Add quantitative results to selected breeding decisions.

Support that continues after the sale.

Australian training

Practical setup guidance for your equipment and chosen test workflow.

Ongoing Australian support

A real person to contact for help beyond the purchase.

2-year Australian repair warranty

From purchase. VETALYZE covers freight both ways for warranty repairs.
