About Barbara

Barbara Hamilton is the founder of AI Doable and a Certified AI Consultant and Certified AI Agent Builder.

She helps women 55+ and small businesses use ChatGPT and AI in practical, understandable ways.

Her work combines beginner-friendly training, consulting and hands-on implementation, with a people-first focus on confidence, useful workflows and responsible adoption.

Barbara is also listed in the International Association of Artificial Intelligence Consultants (IAAIC) directory.

Who I help

- Women 55+ who want to feel more confident using ChatGPT and everyday AI tools.
- Small businesses looking for practical ways to save time, improve workflows and use AI well.

Topics I speak and teach about

- ChatGPT made easy for beginners
- Building AI confidence for women 55+
- Practical AI for everyday life, learning and work
- Where small businesses should start with AI
- AI agents, automation and workflows with a people-first approach
