WHAT EACH FEATURE DOES

Vulnerability scanning

Recurring, high-level scans of external business assets to help identify potential exposure. This is a visibility tool, not active network or firewall management.

Cyber risk compliance

Tools and templates to document policies, manage privacy requirements and stay audit-ready, including support for FERPA and GLBA documentation requirements.

Employee security training

Short, practical training on phishing, password hygiene, social engineering and data handling, to reduce human-error-driven risk.

Vendor and third-party risk management

Document the vendors with access to your sensitive data and keep related policies organized for compliance and breach readiness.

Breach incident response

Certified privacy professionals review a potential incident to determine whether it is a reportable breach under applicable laws. If action is required, you get a clear, step-by-step response plan and access to breach response support.

SMB Legal Support

Access to legal help for breach response, compliance questions and common business legal issues, including consultations and document review.

Fully managed identity theft recovery

If an employee's identity is stolen, a dedicated, certified Recovery Advocate handles the entire restoration process, including paperwork and calls to financial institutions and agencies, from start to finish.

Employee identity protection (Comprehensive)

Dark web, SSN, criminal data and address change monitoring, 3-bureau credit monitoring and alerts, credential vault, lost document replacement, lost wallet protection and $1,000,000 in identity theft reimbursement insurance per employee.

Employee privacy

Monitoring alerts and recovery communications go directly to the employee. Employers are not notified of individual identity events.

Support

Real people are available to help you understand your coverage, respond to issues and work through next steps.

COMPREHENSIVE COST EXAMPLES

EMPLOYEES	ESSENTIALS	COMPREHENSIVE
10	$99.00/mo	$158.90/mo
25	$99.00/mo	$248.75/mo
50	$99.00/mo	$398.50/mo
100	$99.00/mo	$698.00/mo

Comprehensive = $99/month + $5.99 per employee per month. Essentials employee add-ons are paid by the employee and are not included above.

OPTIONAL EMPLOYEE PROTECTION WITH ESSENTIALS

EMPLOYEE-PAID ADD-ON (ESSENTIALS)	INDIVIDUAL	FAMILY	KEY DIFFERENCES
Gold	$8.99/mo	$14.99/mo	1-bureau credit monitoring, annual TransUnion report, $25,000 AIG-underwritten expense reimbursement insurance
Platinum	$10.99/mo	$18.99/mo	3-bureau credit monitoring, annual 3-bureau report, $1,000,000 AIG-underwritten expense reimbursement insurance

Paid by the employee through payroll deduction. Both include dark web, SSN, court records and address change monitoring, the credential vault, lost document replacement and fully managed recovery. Family plans cover a spouse or domestic partner, dependents and qualifying parents.

Plans are month to month and can be canceled at any time. Add or remove employees as your team changes, and pricing adjusts accordingly.
