defend-id

BUSINESS PROTECTION · 2026

Protection for your business and the people who power it.

Compliance tools, breach response, legal support and identity theft recovery, in one monthly subscription built for small business.

PREPARE

Stay audit-ready

Vulnerability scanning, policy templates, employee security training and vendor risk management, with no IT team required.

RESPOND

Know what to do

Certified privacy professionals determine whether an incident is a reportable breach and give you a step-by-step response plan. Legal support is included.

RECOVER

Your people aren't alone

If an employee's identity is stolen, a dedicated Recovery Advocate takes over the entire restoration process, start to finish.

Business Essentials · $99/month

- defend-id core platform
- Breach incident response
- SMB Legal Support
- Fully managed identity theft recovery for employees
- Optional employee-paid monitoring through payroll

Business Comprehensive · $99/month + $5.99 per employee

- Everything in Essentials
- Employee identity and dark web monitoring
- 3-bureau credit monitoring, alerts and annual report
- Credential vault, lost document and lost wallet help
- $1,000,000 identity theft reimbursement insurance per employee

WHY SMALL BUSINESSES CHOOSE DEFEND-ID

- **Built for businesses without IT or legal departments.** Templates and guided steps, not complex systems.
- **Month to month.** No long-term contract.
- **Employee privacy is protected.** Identity alerts go to the employee. Employers are not notified of individual identity events.
- **Real people.** Certified advocates and privacy professionals when something goes wrong.

> "My advocate was very professional, listened to and understood my complete situation, and provided immediate and very helpful solutions. So very comforting. Thank you."
