

NANO 50

BLONDE FORMULA

Professional Directions

PARABEN-FREE

FORMALDEHYDE-FREE

VEGAN

For pre-lightened or naturally light blonde hair

Levels 7-10

nvl.nhbs.com.au

Results up to 6 months

1

CLEANSING

5–10 min

Begin by washing the hair with NVL Anti-Residue Shampoo, ensuring to shampoo twice. On the second wash, leave the shampoo to sit for 3–5 minutes to fully remove product build-up.

Select NANO50 for pre-lightened or naturally light blonde hair (levels 7–10). Avoid clarifying or lightening services prior to treatment.

2

PREPPING

Towel-dry the hair after shampooing. Using your fingers, gently dry downwards to reach approximately 60% dryness – the cuticle stays slightly open for even absorption.

TARGET: 60% dryness – cuticle open for absorption

3

APPLICATION

10–15 min

Divide hair into four sections. Shake the NVL NANO50 well. Apply evenly using a brush and comb-through technique, starting 1 cm from scalp to ends. Do not over-saturate.

FINE
40–60g

MEDIUM
60–80g

THICK
80–100g

4

PROCESSING

50 min

Cover the hair with a plastic cap and allow the treatment to process for 50 minutes. For thick or coarse blonde hair, perform a strand test to confirm readiness.

PROCESSING TIME

50 minutes under plastic cap · Strand test for coarse hair

5

RINSING

Rinse the hair with lukewarm water, removing 80–90% of the product. Leave a light residue in the hair for manageability during drying.

IMPORTANT: Leave light residue — do not rinse completely

6

DRYING & SEALING

Towel-dry the hair and blow-dry until 100% dry. Starting at the nape, use a flat iron to smooth small sections from roots to ends, 7–15 times per section.

MAXIMUM IRON TEMPERATURE

210°C

Do not exceed to protect
blonde and pre-lightened hair

7

POST-TREATMENT CARE

Advise the client to wait 24–48 hours before washing the hair.

For best maintenance, recommend NVL Anti-Frizz Shampoo and NVL Anti-Frizz Conditioner to extend smoothness and shine.

CLIENT TAKE-HOME ADVICE

- No washing, tying, or wetting for 24–48 hours
- Use sulphate-free shampoo and conditioner
- NVL Anti-Frizz range recommended for best results
- Results last 3–6 months with proper care

AT A GLANCE

01

CLEANSE

Shampoo x2 with NVL Anti-Residue Shampoo. Sit 3–5 min on 2nd wash.

02

PREP

Towel-dry to 60%. Fingers only, dry downwards gently.

03
