WHY CHOOSE US?

- **Clinically Experienced Team:** Led by licensed healthcare and veteran professionals with direct clinical and emergency care expertise.
- **Proven Federal & Healthcare Performance:** Reliable supplier to hospitals, clinics, and government healthcare programs.
- **End-to-End Medical Support:** One provider for equipment distribution, consulting, staff training, and technology integration.
- **Strict Compliance:** Fully aligned with FAR, HIPAA, ADA, DOT, and federal medical supply chain requirements.
- **Rapid & Scalable Delivery:** Streamlined logistics supporting urgent, large-volume, and mission-critical federal contracts.

ABOUT US

Ortho Med Spa S-CORP is a trusted provider of medical equipment, clinical support services, and emergency response solutions for federal agencies and healthcare institutions. We specialize in delivering high-quality durable medical equipment (DME), orthopedic devices, and innovative medical technologies that support mission-critical operations across military, veteran, and public health environments.

Our team brings extensive experience in healthcare operations, patient support services, and regulatory compliance, enabling us to meet complex federal requirements with efficiency, accuracy, and reliability. We combine medical expertise with a streamlined supply chain to ensure on-time delivery, dependable service, and adherence to all federal contracting standards.

CORE CAPABILITIES

Medical Equipment & Supplies

- Orthopedic braces, prosthetics, orthotics, and DME
- Glucose monitors, Dexcom devices, and diabetic supplies
- PPE, safety gear, and clinical consumables
- Rapid, scalable delivery for federal healthcare needs

Clinical & Healthcare Consulting

- Workflow optimization for hospitals and clinics
- Orthopedic program and patient-care support
- Staff training on equipment, safety, and compliance
- Telehealth and remote monitoring implementation

First Responder & Emergency Support

- EMS and paramedic medical equipment supply
- Training and advisory services for first responder operations
- Emergency and disaster-readiness support

Regulatory & Compliance Services

- HIPAA-compliant data handling
- ADA, DOT, and FDA standards adherence
- Federal procurement and quality assurance support

Medical Technology Integration

- EHR integration for monitoring devices
- Remote patient monitoring solutions
- Advanced orthotic and prosthetic technology adoption
