Coach Jedi Jason (Jason Oswald)

Author of The FIREBall Method | Financial Freedom Coach | Speaker | Long Bio

Jason Oswald, known as Coach Jedi Jason, was a manager in the collections industry until life flipped the table on him. After his mother's battle with cancer left his family leaning on credit, he found himself buried under more than $78,000 in debt, getting the same kind of calls he used to make. Using what he knew from the inside, he settled it for pennies on the dollar and walked away from the industry in 2000. Since then he's helped thousands escape debt and built The FIREBall Method, the path from financially frozen to financially free.
