PRESIDENT'S MESSAGE

*M*arch invites us to honor Women's History Month by recognizing the women who continue to shape the construction industry with skill, resilience, and vision. Every blueprint drawn, project led, and barrier broken adds to a legacy built by generations of women who refused to be limited.

This month, we celebrate the trailblazers who opened doors, the leaders driving progress today, and the rising talent redefining what's possible. Your contributions strengthen our industry and inspire the next generation to build boldly. Thank you for the history you're making - one project at a time.

The Fort Worth Chapter #1's 42nd Annual Golf Tournament is coming up on April 27, 2026 at the Bear Creek Golf Course. This is our Ways and Means event of the year which helps us not only promote NAWIC, but also to raise funds for our chapter. These funds help us put on events throughout the year such as Block Kids, WIC Week, Industry Appreciation, and our PD&E speakers as well as other events by other committees.

The tournament will also provide a donation to the NAWIC Fort Worth Foundation. The Foundation has given out over \$100,000 to ladies going to school and getting a degree or certificate in construction. The Foundation also has a reimbursement program for its members to take continuing education classes through the NEF programs.

We are so excited as we are doing **2 courses** again this year. We look forward to an exciting and beautiful day of golfing, networking, and some good ole fun. We will have a **silent and live auction** by Chuck Darling, as well as raffles for exciting items.

We are live auctioning off the **liquor cart** this year!

We need donations for the cart, please bring your bottle to the April Business Meeting or reach out to us on getting your donations. Don't have time to shop or want to just do a cash donation?

Send to Jamie Greenway via Venmo, CashApp, or PayPal.

Call to members, we need volunteers!

We encourage all members, if possible, to come out for the day and help on the course or in the pavilion. You can volunteer for just the morning, or afternoon, or all day. Volunteers will be helping to set up, registration check-in, sell raffle tickets, drive carts to check on golfers, and others will be working on holes to watch for some of the awards. With the two courses this year, we need all the help our members can provide.

Colt Stacer

Founder, Chief Strategy Officer

Education

MBA, Master of Business Administration	May 2013
B.S in Architecture	August 2010
B.S in Construction Management	May 2010

Lawrence Technological University, Southfield, MI

Colt Stacer has always strived to encourage students to find their purpose. In 2019, he started Stacer Group with one goal, being the ultimate catalyst for every student to find a purpose that raises individual self-worth through accountability and achievement.

Over a decade ago, Colt started in the education industry as a member of an Advisory Board for students pursuing CTE programs in Oakland County, Michigan as an industry partner representing Automation & Modular Components. In 2017 he moved to Texas with the goal of expanding student offerings in a new market. Since his move he has taught TEA approved dual credit college coursework, worked with over 20 P-TECH schools to develop sustainable program infrastructure, provided consulting services to CTE directors across the state of Texas, spoke at educational conferences on industry partnership relationships, and started the development of innovative software to further expand student achievement.

As an industry partner, Colt previously was a leader at Brock Solutions, an engineering solutions company. His focus within the company was providing customers with airport baggage handling systems across the United States. His most recent accomplishment was the Go Live of DELTA SKYWAY at LAX in August 2023. His last major project was San Diego Airport Terminal 1. In addition, he was responsible for the sr. program management of the United Airlines account, at the time Brocks largest account. Prior to Brock Solutions he worked in the automotive, warehouse distribution and industrial automation industries. In addition, he previously owned Stacer Concepts LLC, an engineering and manufacturing business.

Colt resides with his wife, Jackie, and three dogs in Fort Worth, TX.
