LA MASIA MODEL – FC BARCELONA'S YOUTH ACADEMY

- **La Masía**, translated to "The Farmhouse" in English, in honor of the original academy house, is the term used for **FC Barcelona's youth academy located in Spain**.
- **The Academy currently includes more than 300 young players**, and is the first youth academy in the world to have trained all three finalists for the Ballon d'Or in a single year (Iniesta, Lionel Messi and Xavi). The Academy has been a significant factor in Barça's European success.
- **Many attribute FC Barcelona's success to the La Masía "Philosophy of Play" which all players learn**. The philosophy consists of the application of **"total football"** mixed with traditional Spanish one-touch play.
- **This philosophy is the building block of the methodology across all Barça Academies and Camps around the world**. The methodologies and teachings Barça Academy players and campers receive are the same principles World Class players have grown up learning at La Masía.

LA MASIA MODEL – UNIQUE METHODOLOGY

- Barça Academy methodology is the same training used by La Masía, which aims to teach the core skill principles and values that are representative of FC Barcelona.
- Most importantly, **better people make better players**. Each player will be expected to carry the skills and values taught within Barça Academy with them throughout their life.
- Ball possession, reduced spaces and decision making** are the principles of the unique FC Barcelona style and philosophy.
