LAW ENFORCEMENT CERTIFICATION PROGRAM - SOUTH CAROLINA

FOCUS

CERTIFICATION

IN-PERSON TRAINING | TAYLORS, SOUTH CAROLINA

Seconds for Survival

THE FOCUS SYSTEM FOR THREAT RECOGNITION

Most officers are trained to respond to violence. FOCUS trains you to see it coming.
FOCUS is the only research-based framework designed to protect you before violence begins.

DATE	TIME	COST
November 12, 2026	0800 - 1700	$149 / Officer Until 11/1 | $249 after

150 Thurston Rd, Taylors, SC 29687

WHAT YOU WILL LEARN

Most officers are trained to react. FOCUS trains you to see — before the threat becomes a crisis. Built from the largest study of officer-involved encounters ever conducted, the FOCUS System gives law enforcement a structured, evidence-based framework for reading human behavior in real time. It converts what you observe into a calibrated, documentable risk assessment that supports better decisions, stronger reports, and outcomes that hold up in court. This is not criminal profiling. This is science applied to survival.

- **Recognize Pre-Incident Behavioral Indicators**
  Identify observable cues and suspicious patterns before a threat materializes.
- **Apply the FOCUS System**
  Convert observable behaviors into a calibrated risk tier for sound tactical decisions.
- **Establish Baseline & Detect Anomalies**
  Understand normal behavior so deviations stand out — act left of bang.
- **Understand Human Behavior Principles**
  Learn why humans telegraph intentions and how to read those signals in real time.
- **Manage Cognitive & Emotional Performance**
  Develop situational awareness and emotional regulation under stress.
- **Analyze Threat: Capability, Opportunity & Intent**
  Apply a structured threat model to assess totality of circumstances.
- **Generate a FOCUS Risk Index (FRI) Score**
  Calculate a documented 0-10 risk rating aligned to Graham standard.
- **Articulate Decisions in Reports & Testimony**
  Build legally sound documentation that survives cross-examination.
- **Apply Relevant Case Law**
  Understand how courts evaluate pre-incident indicators and officer decisions.
- **De-escalate & Respond Proportionally**
  Apply Read - React - Respond to lawfully manage high-risk encounters.
