There are no "expect" questions

Exam Tips

Example Question

Answers are alphabetized

EXAMPLE:

On a rainy day,
the sky is:

- A. blue
- B. gray
- C. white

-----AGENDA-----

Why

**WHY SHOULD I TAKE THE NCC
NEURO-NICU CERTIFICATION?**

Study Group

What percentage of RN's are certified?

A young woman with dark hair tied back, wearing blue scrubs and a stethoscope, is smiling warmly at the camera. She is positioned on the right side of the frame, with her body angled towards the left. The background is a soft, out-of-focus light blue and white, suggesting a clinical or hospital setting.

According to Nurse.com and a 2018 survey, **only 40% of American Nurses are certified.**

Options in NICU

STABLE, NRP

NCC - RNC-NIC

TRAUMA-INFORMED

TOUCH & MASSAGE

NCC - NeuroNICU & ELBW

Why get certified

Better job prospects, shows professional credibility

Demonstrates higher level of clinical competence = higher salaries

Position yourself for more respect and recognition - use those initials proudly

Be more marketable and hire able - 90% of manager would hire certified nurses over non-certified

Why get certified

Shows a
commitment
to
excellence.

Demonstrates
that you are
dedicated to a
certain area and
took extra time to
educate yourself
further in your
field

Make more
money
(according to
salary surveys)

Sense of
confidence and
achievement

26 HIE & Cooling

JULY 2026

10 IVH, PVL, Neuroprotection

17 Pain, Infections, Ethics & End of Life

Success Stories & Testimonials

I am extremely happy and grateful to you for helping me prepare and successfully pass the Neuro-NIC exam.

I took my exam on 10/31/21 and got my result just this morning. The materials, videos and all suggestions you provided were really helpful.

Thanks for paving a path so that people can study and understand the complicated brain in a simple manner.

Success Stories & Testimonials

It has been a long time since I had to study. **I actually had no idea how to study anymore, especially since there were not any practice tests at that time.**

Kathi's course was wonderful and helping me prepare my thoughts. I would listen to her classes on my commute. The video links she gave were so helpful to explain concepts that I haven't thought about since my University days. The guest lecturers were easy to understand.

Even if I never took the exam, everything I learned made me a better nurse... and a more compassionate person.

I don't think I ever would have had a chance to pass this test without Kathi's help.

Success Stories & Testimonials

Thank you for such an amazing review course for the C-NNIC certification.

I recently received my exam results and I **passed on my first try and scored in the "strong" category for each section of the exam.**

I **solely relied on your course** and a few sections from a comprehensive neonatal textbook, **but your course was the most helpful!**

Success Stories & Testimonials

“
The course was an excellent review of NeuroNICU.

It helped me expand my knowledge of newborn neuro care.

Took the C-NNIC a couple weeks back after viewing the content you offer & scored very strong in all categories!

Super review Kathi!
